ARROW CANYON.

Odd Way in Which Its Walls Were Decorated by Indians.

Thousands of arrows shot by bands of Indians for possibly centuries protrude from a fissure several hundred feet long in the rocky walls of Arrow canyon, about twenty miles from the crossing of the Salt Lake railroad over the Moapa river, says the Los Angeles Times.

At a point where the perpendicular wall of the canyon juts out about 200 feet above the canyon bed a thin, snake-like fissure runs in the rock. Successive generations of Indians have gone to the place at regular intervals and shot their gayly befeathered arrows upward, forming a fringed scarf unique in its oddity. The arrows are so thick that little room is left for

The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored **LION COFFEE**, the leader of all package coffees—the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit for a king in this way:

HOW TO MAKE GOOD COFFEE.

Use LION COFFEE, because to get best results you must use the best coffee. Grind your LION COFFEE rather fine. Use "a tablespoonful to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules:

- 1st. WITH BOILING WATER. Add boiling water, and let it boil THREE MINUTES ONLY. Add a little cold water and set aside five minutes to settle. Serve promptly.
- 2d. WITH COLD WATER. Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve.
- 3 (Don't boil it too long. Don't let it stand more than ten minutes before serving. DON'T use water that has been boiled before.

TWO WAYS TO SETTLE COFFEE.

- 1st. With Eggs. Use part of the white of an egg, mixing it with the ground LION COFFEE before boiling.
- 2d. With Cold Water instead of eggs. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

Insist on getting a package of genuine LION COFFEE, prepare it according to this recipe and you will only use LION COFFEE in future. (Sold only in 1 lb. sealed packages.)

(Lion-head on every package.)

(Save these Lion-heads for valuable premiums.)

more, and owing to the position of the fissure at a height of 200 feet and under the shelving wall the relics, protected from the weather, have stuck where they were driven in uncounted years ago.

Already relic hunters are visiting the place and despoiling it of its treasures by shooting the arrows out with revolvers and rifles. In the sands of the bed of the canyon many arrowheads of various sizes and shapes are found buried. It is believed that the Indians visited this spot in connection with some rite. Crude, strange figures have been cut by them in the face of the rock walls.

Economy in Spelling.

"An English professor visited this country a few years ago," said a New York merchant, "and the first thing which attracted his attention was the spelling of the word 'whisky' in an advertisement which was generously and prominently displayed from many points of vantage. The professor was accustomed to spell it 'whiskey'."

"He did not, however, question the correctness of the spelling, but was curious to know why the advertiser preferred the shorter word."

"The business man received his inquirer politely and in answer to the professor's question said:

"Our method of spelling makes unnecessary the illumination of an extra letter in our electric signs."

A Generous Offer.

When Miss Helen Keller was at the exposition in St. Louis in 1904 she visited the Japanese tea house and for a few minutes shook hands with some of the waitresses, little olive colored women who spoke almost no English, but expressed their interest and intelligence without words.

Many weeks after Miss Keller had returned to Boston she heard from an official of the exposition that one of the Japanese waitresses had gone to a St. Louis physician and asked to have one of her eyes taken out and given to Miss Keller. When she was told that such a gift was impossible she wept in bitter disappointment.

WOOD CUTTING AS SPORT.

Championship Sawing and Chopping Matches in Australia.

At many of the agricultural shows, which in the up country districts of Australia and New Zealand are fixtures of the utmost interest and importance to those engaged in pastoral pursuits, the tree felling contests provide the chief excitement of the day. Throughout the Australian bush there are to be found axmen so expert that their achievements are the subject of discussion for miles around, and it is at the agricultural shows that these giants of the game meet to decide the local or international championships.

The competitors take up positions by the stumps allotted, and when the signal to start is given the long handled, keen edged axes flash downward to the opening stroke. The cooper round a cask is but a sloth to these brown skinned, brawny woodsmen, who with marvelous accuracy and strength strike

up, down and straight until the hard wood chips fly in showers from the smitten tree. To him who in the best time most cleanly decapitates the stump the prize is given. The sawing contests, which are hardly less exciting, depend upon the evenness and speed of the cutting, and for the man who thinks he knows what a hard day's work is a share in sawing through a thirty-six inch iron bark log in a temperature of 120 degrees or thereabout would be the most perfect disillusionment imaginable.—London Tatler.

Agreeable advice is seldom useful advice.—Massillon.

An Only Daughter Cured of Consumption

When death was hourly expected, all remedies having failed, and Dr. H. James was experimenting with the many herbs of Calcutta, he accidentally made a preparation which cured his only child of Consumption. His child is now in this country and enjoying the best of health. He has proved to the world that Consumption can be positively and permanently cured. The doctor now gives this recipe free, only asking two cent stamps to pay expenses. This herb also cures night sweats, nausea at the stomach, and will break up a fresh cold in twenty-four hours.
