Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, **how do you know what you are getting?** Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

Could any amount of mere talk have persuaded millions of housekeepers to use

Lion Coffee,

the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no stronger proof of merit than continued and increasing popularity.

If the verdict of MILLIONS OF HOUSEKEEPERS does not convince you of the merits of LION COFFEE, it costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages, and reaches you as pure and clean as when it left our factory.

The Clarendon Press once made a bid for printing the notes of the Bank of England. It was many years ago, when the forger was abroad in the land, and it was desired to make his task more difficult. A sample Oxford note was adorned with a number of unintelligible quotations from out of the way languages—Arabic, Coptic and others. It was thought no forger could produce them, and an elaborate argument was given in with the sample note to that effect. Nowadays any note may be copied by photography, and the unique quality of its paper is the security of the Bank of England against fraud.—London Sketch.
