where they will visit for a time with relatives before returning to their home in Montana.

We are in receipt of a copy of Tom Worrall's book, "The Grain Trust Exposed." Do you know anything of what has become of the Good Roads association? The plan adopted by other cities in the state, and which we believe would work well here, is for the merchants to drive in a body over the roads leading into town, take note of the repairs

needed, make estimates of the cost, and then go ahead with the work regardless of road overseers and county commissioners. This plan has worked well at Fremont and surrounding towns, where they have the finest roads in the state. Why not try it?

The people of Red Cloud will be sorry to learn that Station Agent Tom McCarl has decided to give up the position and re-enter the train service. Mr. McCarl has made many friends here, especially in musical circles, and his place in M-reer's orchestra will be hard to fill. Mr. McCarl has the same objection to the agent's position here as that which caused Agent Conover to resign—too long hours and too much work for one man. It is a sample of Jim Hill's economy—increasing the dividends a few dollars at the cost of the health of the employes of the road.
