

It Quiets the Cough

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more—it controls the inflammation, quiets the fever, soothes, and heals. Sold for 60 years.

Ayer's Cherry Pectoral has been a regular life preserver to me. It brought me through a severe attack of pneumonia, and I fear that I owe my life to its wonderful curative properties. —WILLIAM H. THUITT, Wawa, Pa.

Col. Kaley as an Agriculturist.

C. W. Kaley of Red Cloud, a member of the legislature, and formerly a member of the board of regents, is in Lincoln to attend the meetings of organized agriculture. Mr. Kaley is especially interested in the dedication of the new agricultural hall at the state farm, which will take place this afternoon. He was a member of the board of regents that established the agricultural school at the farm. He contended for years that a short agricultural course would result in the farmer boys attending the school and then returning to the farm to work out the ideas gained in school, where as, the students in a long course, such as is given in agricultural colleges, would turn boys away from the farm. He is enthusiastic over the results of the instruction given at the agricultural school, and predicts still greater growth. When Mr. Kaley was regent there were only seventeen students in the school. Now there are several hundred—State Journal.

A Deplorable Sight.

One of the most deplorable sights ever seen in Red Cloud was witnessed Tuesday morning when a middle-aged woman giving the man of Cora Hoover was arrested for drunkenness.

The woman, in company with a man alleged to be her husband, came to town a few days ago and secured lodging at the Pioneer hotel. The man went to work at the mill, and while he was at work Tuesday night the woman got out with some of "the boys," and got howling drunk and continued her jag Tuesday morning. For a half hour she sat in front of Lindley's restaurant and entertained a crowd of the curious with her indecent remarks. Sheriff Hrdge took her to jail, and in the afternoon Police Judge Reed fined her \$10. As she had no money with which to pay her fine, she was ordered out of town.

To Renters or Investors

We have recently listed a few bargains in improved and unimproved lands in this and adjoining counties which can be sold cheap, and most of them on easy terms.

In addition to the above we have the best kind of irrigated lands in the

Arkansas Valley

in Southeastern Colorado, which lies east of the Rocky Ford country

There is hardly any known crop which, on an irrigated farm, will not yield from 50 to 100 per cent more than the same crop on a rain farm. An irrigated farm responds to the brains and labor of a farmer in a way that makes his return certain. When the crops are planted in the spring under irrigation, practically every chance against his success for the year is eliminated, and that the returns he will get in the fall can be measured accurately by the amount of work he puts into the soil and the amount of brains he uses in applying his labor.

The Soil Is Rich

and deep, water good, climate is much warmer than here, and the water system is the best in the United States, as near as we can understand.

Land and Water are Sold Together

the water being sold as a perpetual water right and is attached to the land, on easy terms,

10 Per Cent Cash

at time of purchase, balance divided into seven annual payments, at 6 per cent interest.

Special rates through Jan. and Feb. of \$10 for round trip from Superior and return.

On each first and third Tuesday, beginning the 16th of January. Special car leaves Superior at 8 o'clock a. m., and will return as soon as the parties looking at the country want to return. This is a good, clean proposition. Talk to the parties we have sold to. Call on or address.
