Hiram Windscheffel's house in Lane township caught fire last Friday. Mr. Windscheffel was at Athol when his house caught fire but his wife gave the alarm to the neighbors who soon answered the call and the fire was put out.

BREEDERS ELECT OFFICERS.

Enlighten Chinese Investigators on American Methods.

Lincoln, Jan. 19.—Delegates to the American Breeders' association united in the sessions of the different state associations being held in the city and at the state farm and took an active part in the discussions of stock raising and agricultural topics. The set program was departed from on account of the presence in the city of the imperial Chinese commissioners, who visited the stock judging pavilion at the state farm and were enlightened on American methods by representative breeders. Assistant Secretary of Agriculture Hayes, who is attending the breeders' meeting, aided in the reception to the visitors.

At the afternoon session of the breeders Professor Boss of the Minnesota experiment station delivered an address on "Testing Meat Producing Animals," and the discussion following was participated in by L. H. Kerriek of Illinois, Professor Smith and J. J. Ferguson. Other addresses were by Professor W. J. Spillman of Washington, on "Practical Law Applied to Breeding;" "The Farmer's Cow," by H. C. Wallace of Des Moines, and "Range Sheep," by Professor Buffum of the Wyoming experiment station.

At the business meeting the breeders' association elected as president, A. P. Grout of Winchester, Ill., and secretary, E. A. Burnett of Lincoln, Neb.

WARE TRIAL MAKES HEADING.

Government Rests Its Case and Defense Starts.

Omaha, Jan. 23.—The government concluded its testimony in the case of G. G. Ware, accused of subornation of perjury in connection with illegal land fencing, and announced that it rested. Forty witnesses were called for the government. The number summoned was approximately seventy, but many of those were to substantiate the fact of the illegal enclosures, but as Foreman Hoffgard of the U. B. I. ranch testified that the last gap of the enclosure had been made in April, 1905, it was not thought necessary to keep the other thirty-five or forty witnesses here to give evidence as to the enclosures, and hence the chief fact sought to be established was the conspiracy of attempting to defraud the government of titles to the particular public lands inside the U. B. I. Land and Cattle company's enclosure by fraudulent filings.

The apparent policy of the defense is to impeach the testimony of Frank W. Lambert, the chief conspirator, alleged to have acted in collusion with Rev. George G. Ware, president of the U. B. I. Land and Cattle company, and also to show that Mr. Ware's motives in undertaking to secure soldiers' filings within the U. B. I. enclosure was purely philanthropic, in that the lands would be looked after by the U. B. I. company in the interim between entry and final proof, and that his only solicitude was to secure such parties to file on the lands as would not bring dogs and other objectionable features onto the range to trouble and annoy the cattle ranging there.

Milton's Works.

Milton regarded the "Paradise Regained" as infinitely superior to the "Paradise Lost" and once expressed great surprise that any one should entertain a contrary opinion. He said that of all his works the poem "On the Morning of Christ's Nativity" was his best. It was his earliest, being written in 1629, when he was twenty-one years of age.
