

A Food to Work On

Work! Work!! Work!!!

Lots of energy is needed to keep up the pace. In the struggle, the man with the strong body and clear brain wins out every time.

The man of to-day needs something more than mere food; he needs a food that makes energy—a food to work on.

Although some people may not realize it, yet it is a fact, proved and established beyond doubt, that soda crackers—and this means **Uneeda Biscuit**—are richer in muscle and fat-making elements and have a much higher per cent. of tissue-building properties than any other article of food made from flour.

That this is becoming known more and more every day is attested by the sale of nearly 400,000,000 packages of **Uneeda Biscuit**, the finest soda cracker ever baked. An energy-giving food of surpassing value—sold in a package which brings it to you with all the original flavor and nutriment perfectly preserved. *Truly the food to work on.*

Whoever you are—whatever you are—wherever you work—**Uneeda Biscuit**.

Red Cloud in 1906.

Have you thought of what the year promises for Red Cloud by way of growth and improvement. These facts have been dawning in a desultory sort of way upon those who are watching things move, but when summarized they present an array of which we may well be proud. First, the building planned to take place during the year is of itself a worthy evidence of growth. The new church edifice to be erected by the Catholic society will add \$10,000 to the real estate values of the city; the new home for which Alf McCall now has his plans complete will be one of the best in town when completed, while the house to be erected on the west side of the same block in which Mr. McCall will build will be an excellent addition to our residences. In addition to these several farmers in this vicinity are now planning to move to town and either purchase or erect homes during the season. Some of these are already figuring with the local carpenters on dwellings they plan to build.

From the standpoint of municipal improvement the indications are equally promising. The council has ordered the purchase of the necessary material for putting down new wells and will have a water supply that will mean much to all concerned. It should not be many months before visible evidences of our new electric light plant will tell the wayfarer of light for dark nights. Just as soon as the condition of the ground will permit whole blocks of permanent sidewalks will be laid in different parts of the city, and it may truly be said that our city can be styled Red Cloud the Beautiful.

Then, too, the growth for the year will put us away above the two thousand mark. By the taking of adjacent properties into the incorporation, which will be accomplished as soon as the next term of district court convenes, the population should be easily swelled to over 2,000, and the influx of new residents, which will be steady if present indications mean anything, should make Red Cloud a city of 2,500 by the beginning of another year.

All that is needful is a better spirit of cooperation on the part of those interested in our growth. Let that committee appointed to arrange for the beginning of a commercial club get down to business. Such a club is doing much in many of our Nebraska towns to induce new capital to come in and invest. Let all of our citizens get behind every public movement and boost hard. Let us by every means unite to make Red Cloud desirable as a home. By doing these

things we can easily make it the best city in the Republican valley for business, beauty and desirability as a home for anyone who may be seeking a location.

Final List of the... Failed.

... confessed big... was, it but a fraction of the... that are told of him... was one of the greatest criminals this country has ever known, was hanged in the county jail for poisoning his wife, Marie Welcker.

He faced death as he has always said that he would face it when the final moment came—calmly and without fear. He stood on the scaffold beneath the dangling noose in the attitude and with the placid courage of a soldier who realizes to the full that death is his portion, but is still unafraid. He died with a prayer on his lips for the officers of the law who took his life and save for the words, "Goodby," his last utterance was an assertion that he was innocent of the crime for which he paid the extreme penalty of the law.

The last scene in the career of Hoch came while his attorneys were still making desperate efforts to induce Judge Landis to sign an appeal, who, however, instructed the sheriff by telephone to carry out the sentence. Hoch's death, the lawyers say, has not ended the appeal that was made in his behalf, and although the man himself is dead, they promise to carry the case to the supreme court of the United States, and if it is there decided that he was unlawfully hanged, proceedings will be commenced against the officers of the law who officiated at the execution.

DEMAND DOLLAR WHEAT.

American Society of Equity Issues Call to Farmers.

Indianapolis, Feb. 24.—A strike of the 200,000 farmers composing the American Society of Equity, an organization with headquarters in Indianapolis, has been called for March 1. Everyone who responds to this call will agree to withhold from marketing any agricultural products excepting at prices that are up to the level that has been decreed as equitable by the officials of this organization.

This organization claims that the producer ought to get at least \$1 a bushel for wheat, no matter what may be the size of the crop. The call of the strike sets forth a minimum selling price on all farm products, prices which the agricultural strikers claim they are entitled to and can get if they stand together.

Kansas and Minnesota are being flooded with copies of this call. It is figured by the officials of the organization that if these states hold out for the higher prices the movement will prove a success.

Castro Bitter Against Americans.

Willemstad, Curacao, Feb. 26.—Advices received here from Venezuela are to the effect that President Castro says he will humble France, break up the Monroe doctrine, clear out the French from Venezuela, and then start on Americans, Englishmen and Germans, who, he declares, are worse than Chinese. He is reported as saying that he will clear the country of foreigners. He is very bitter against Americans, who, he says, are after his country. The populace is yearning for an American protectorate and the better class of Venezuelans are reported as saying that they demand immediate intervention by the United States for the sake of humanity.

"Battling" Nelson Stops a Runaway.

Huntington, W. Va., Feb. 26.—"Battling" Nelson, the champion lightweight pugilist, who is spending a few days in the mountains at Blue Sulphur, near here, prior to going into training at Philadelphia, was painfully bruised in stopping a runaway at that place and rescued Mrs. Frank Howard, with her two small children, from a perilous situation. Mrs. Howard had taken the children for a drive and the horse, becoming frightened, bolted and ran. As the runaway neared Nelson, the pugilist leaped for the horse's neck and succeeded in stopping it only after he had been dragged a considerable distance. The bruises are not serious.

Tennessee Feud Fatal to Three.

Woodbury, Tenn., Feb. 26.—The Johnson-Motley feud in this (Cannon) county broke out afresh and as a result the following are fatally wounded: Samuel Blair, shot four times in stomach; Bob Motley, shot twice in groin; Richard Johnson, throat cut. The trouble between the Motleys and the Johnsons originated ten years ago over the operation of an illicit distillery, when blood was shed, and has broken out intermittently since. Last night's renewal came at a young people's "candy pulling." Both Motley and Blair were shot by Johnson, but who cut the latter's throat is unknown.

Kiely Secures Injunction.

St. Louis, Feb. 28.—Matthew Kiely, suspended chief of police, on trial before the board of police commissioners, stopped the trial by obtaining a temporary injunction to prevent the board of police commissioners from continuing the proceedings.
