

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, catching hotheads, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetable. The dose is only one pill at bedtime.

Weston for Governor.

The friends of former State Auditor Charles Weston of Hay Springs are urging him to enter the race for governor, and if he decides to enter the contest for the nomination it will be found that he has many friends in this part of Nebraska. He is a man of sterling worth and is popular with all who know him. During his term as auditor a Wyoming bank in which he was interested, but in the management of which he had no part, became involved in financial difficulties, and it was through the efforts of Mr. Weston, who sacrificed his personal property and entered upon a course of rigid economy that he might save money, that the creditors of the bank were paid. Such men are rare today and they are deserving of all the honor that can be bestowed upon them.

Keep Norris in Congress.

The Commercial-Advertiser has started a small sized boom for Colonel Ike Shephardson of Riverton to succeed G. W. Norris in Congress. While we admire Mr. Shephardson, we can see no reason for making a change. Mr. Norris has shown ability and courage in all his work in the National House of Representatives. It is well known to everyone that the longer a man serves in Congress the greater is his influence and power to do good work, and it is very poor policy to make frequent changes. We do not believe there is any great demand among the Republicans of the Fifth district for a change, and will continue to support Mr. Norris as long as his work continues to be as satisfactory as it has been in the past.

Regarding Obstructionists.

Every community has a few men who are always ready to stand up and fight against wrong-doing, and they deserve the hearty support and commendation of all good citizens. Also, every community is cursed with some man or men whose sole aim in life seems to be the placing of a stumbling block in the way of those who are working for the moral and material advancement of the city's interests. Red Cloud has a superabundance of the latter class—men who are "fernist" everything which they do not themselves originate. The arguments and

obstructions placed in the way of the electric light bonds, which have caused the city to go to considerable useless expense, are a sample of their work. Sometimes these men are only catspaws in the hands of other and more able men who remain in the background and escape the odium of their actions, though they reap the benefits when there are any. It would be much better for the community should such men remain out of it.

In spite of the efforts of the knockers, Red Cloud will continue to improve and grow, for the majority of the people are on the right side and awake to the needs of the city.

Mr. McCrary has made frequent trips to his old home in Indiana "to see the folks," so he said, but no one will be very much surprised at the news of his marriage. We extend congratulations.
