(From the Signal.)

S. B. Newmeyer has sufficiently recovered from his recent illness to travel and departed Tuesday morning for the west.

Saturday night about 11 o'clock the barn on the farm southeast of town farmed by Bert Van Horn was burned to the ground. Considerable grain and hay was lost, also all his harness.

Enough money was raised by the members of the M. F. church and citizens interested to purchase a typewriter and present it as a gift to Miss Cora Simpson, who departs in a few days for Foochow, China, to serve as a nurse in the Lingau hospital.

RIVERTON

(From the Review.)

Billy Hunt and bride returned to their home at Red Cloud Wednesday, after spending a week with his parents, Mr. and Mrs. William Hunt, who live near this place.

It is reported that recently Al Holdredge captured two chicken thieves the other night. This will probably stop the loss of young chickens, if not we will publish the names of the next thieves caught.

Last Friday afternoon George Kness hitched his single driver to the buggy and taking his wife and her sister, Miss May Grube, the three started for the hay meadow to bring in a wagon that had been left there. For the lack of room George was compelled to sit on the laps of the two ladies which was not a very handy position to manage a horse. His horse became frightened at something, giving a lunge and George was thrown out on his head and the wheel ran over him. The lines were jerked from his hands, the horse ran but a short distance when Mrs. Kness was thrown out, badly spraining her ankle. Miss Grube was able to stay with the rig until the horse struck the fence, the jar of which threw her out but did not injure her badly.

CAMPBELL

(From the Citizen.)

The guests of the Gaudreault house party departed the first of the week, the program as arranged having been carried out without a hitch.

A. H. Gray, of Norton, Kansas, accompanied by his family stopped in Campbell Tuesday night, with Mr. Gray's father-in-law, Henry Ross.

A quiet wedding took place at the home of Mr. and Mrs. Jacob Kimley, north of town, Wednesday evening, when their daughter Emma was united in marriage to Mr. Phillip Nickles.

Hilfred and George Rutt each enriched the school fund Saturday as the result of a little brotherly disagreement. "Dog days" seem to have a decidedly souring effect on the temper.

A double tragedy occurred at the home of John Becker the latter part of last week, the death of Mrs. Becker Saturday afternoon at 3:30, being preceded by one day by the passing away of her infant child aged but three months. The child was buried Saturday, and Mrs. Becker's funeral was held from her late home Monday, at 2 o'clock conducted by Rev. Goetz, and the remains laid to rest in Orco cemetery.

Thad Smith, known to nearly every person in Lebanon and surrounding country, a horseshoer by trade, having worked at a H. N. Alloway's blacksmith shop at different times, forged three checks and passed them all within twenty minutes, Monday evening. Two

of the checks were drawn on John Alloway and one on Charles Alloway. Two of the checks were written out for \$26 and one for \$16. He took one of the checks to Derge's store, secured an \$8.50 suit of clothes, paid an old account of \$1.50 and received \$16 in money. The other \$16 check he took to Maute's shoe store, purchased a \$5 pair of shoes and received the remainder in money, and the \$16 check was passed at Hendrickson Bros. hardware store, receiving it all in cash. It was such a clever forgery that the bank didn't notice it, Gene Eldred, who cashed the check for him at Maute's store took the check along with some other money Tuesday morning and deposited it in the State bank. Thad purchased a ticket Monday evening for Bellville and boarded the first train east. Nothing has been heard of him since, but every effort will be put forth to capture him.

When Marshall Davidson goes after a fellow he goes hard, especially when after a crook, as was the case Tuesday night when he chased a light fingered fellow across the street to Dr. Byerly's corner, though he doesn't always get him. This fugitive out-printed our blue coat and got away, but barely escaped the big cane John carries and threw at him while on the run.

SMITH CENTER

(From the Messenger)

The pile of express that came in Monday night, we are of the opinion that fair week will not be so awful dry after all.

In some way, not yet known, a fire was started at the fair grounds last Sunday about two o'clock that did considerable damage to the fair association, besides that five horses and other property was totally destroyed.

Lew Breakley R. H. Skillin and several other young fellows came over from Lebanon Sunday, as soon as they heard of the fire at the fair ground. They came in an auto in thirty minutes. They found their horses safe and sound.

A REWARD OF FAITH.

The Story of a Church Twice Struck by Lightning.

A congregation in a hilly district in Ohio, says the Youth's Companion, bought a small tract of land and erected a church building upon it. Then the question of insurance came up. Mr. Sipes, the wealthiest member, who had contributed more than half the money needed for the new structure, declared that he did not believe in insurance. "This is the Lord's building. He'll take care of it," he said.

His view prevailed, and there was no insurance. In a few weeks the building was struck by lightning and almost totally consumed by fire. Another one was erected, Mr. Sipes contributing the greater portion of the fund as before. This time the demand was almost unanimous that it be insured, but Mr. Sipes again objected on the same ground.

"If it burn down again, brethren," he said, "I'll agree to rebuild it myself."

Again he carried his point. In less than a month the new church was struck by lightning again, and although strenuous efforts were made to save it, the loss was almost total.

"There must be some reason for this, brethren," said Brother Sipes. "I am going to find out what it is."

Thereupon he employed a force of men to sink a shaft on the site of the twice destroyed church. Within a few days a rich vein of ore was found, and the church property was sold for many times the amount needed to buy land in another locality and build again.

"I tell you, brethren," said Brother Sipes, "it pays to trust the Lord. He's a great deal better business manager than anybody in this congregation."

OLD CARLSBAD.

In Ancient Times the Cure Was Somewhat Violent.

Carlsbad, that fashionable resort in Bohemia, is a very ancient cure place. It has held a royal charter from Kaiser Carl IV, since 1401. History has it that it was the mighty leap from rocky heights to the depths below of a hunted deer pursued by the hounds of Kaiser Carl IV, that led to the discovery of the Sprudel spring and that the deer hunting emperor was the founder of the health resort to which he gave his name.

Originally the Carlsbad cure and the mode of life there, a mode which remained in fashion for at least two centuries, consisted solely in the use of the baths. This, however, was so energetic that we children of the twentieth century are overcome by a feeling of admiration for the doctors who ordered such cures and still greater honor for the patients who could undergo them, for the bath treatment was so severe that it was not inaptly called the "hautfresser," or skin eater. It was only about the year 1500 that Dr. Payer, the town physician of Elbogen, near by, ordered the Carlsbad water to be drunk as a cure. Quoting from the publications of the period and Dr. Payer's remarks:

"I have said that this water must be drunk, and as hitherto it was not usually employed for drinking, but only for bathing, this will appear new to many." The quantity of the water prescribed was in handsome proportion to the "skin eater"—twenty, forty and up to sixty cups of a morning regularly.—Town and Country.

A Cardboard Planet.

One remarkable achievement of Sir William Herschel was in connection with the planet Saturn. He had arranged to erect his telescope at Windsor castle to enable Queen Charlotte and the ladies of the court to see the wonders of the ringed planet, but on the evening arranged for the observation great banks of clouds covered the sky. However, he explained that that would not matter, and after the instrument had been carefully directed the queen and her attendants looked through it and saw the great planet and its marvelous rings quite distinctly. Herschel, it seems, had expected bad weather and during the day had made a cardboard model of the Saturnian system and erected it in the grounds a lamp at the back providing the necessary illumination.—Westminster Gazette.

He Wasn't a Gormand.

That wary old fellow, Balie Macduff, was enticed into a friend's house the other night, and his host managed to win 50 shillings from him at "nap." What is more remarkable, when the baillie had parted with his last shilling he rose, full of wrath.

"Won't you stay to supper?" pressed his host. "We have a fine bit of ham waiting."

"No, not I. Dae ye think I eat 50 shillings' worth of ham?"—London Answers.

Our Language.

"He's the coming man."
"Yes; he's one of the best fellows going."—Baltimore American.

The great republic shall live as long as the poorest citizen freely expresses his personal and political opinion, and so longer.—Baltimore American.
