GATHERED FROM OUR EXCHANGES

J. F. Grimes left last week Illinois where he will visit a number of days with relatives and friends.

Mrs. F. A. Wilcox and son Leslie, left Monday for Riverton where they will visit at the home of Ed. Wilcox a few days.

The B. & M. has had a gang of men here the past two or three weeks placing a foundation under the depot and tearing up the old wooden platform to replace it with a brick and cinder walk. The company is doing this at a number of its stations and it will undoubtedly prove much more satisfactory to the public who have occasion to go to the depot. The old wooden platform was uneven with occasionally a broken board and there was always some danger of tripping on it and getting a fall from which one might sustain a serious injury.

## STILLWATER

Weather fine, fields like frost, cold weather soon be here.

Those who attended the State Fair reported a fine time.

Mrs. Greenhaigh of Cowles visited a few days at her son James last week.

This corn crop in this section of the country will not be more than a half or third of a crop at best and if frost comes early it will not make that.

The third crop of alfalfa is about all cut now. It was not so heavy as the former cuttings owing to the weather.

Next Sunday will be Rev. Priestley's last appointment before Conference. Services at 11 a. m. and at 8 p. m.

## GUIDE ROCK.

(From the Signal.)

A specialist from Fairbury assisted Dr. C. F. Moranville in performing an operation on Mrs. E. B. Orary Monday morning. Mrs. Orary has been a sufferer for some time.

H. W. Bayles, his wife and four youngest children, departed Wednesday for Denver where they expect to make their future home. They are travelling overland with a comfortable house on wheels, built for service until they have time to improve a tract of land.

Sunday evening while services were being conducted at the tent, Roy Stickle was accidentally struck in the eye by a parasol in the hands of a companion, as they were approaching the entrance. It was thought at first that he would lose his eye, but we are informed now that if nothing unexpected happens, he will recover.

Sunday evening Joe Shaffer and Floyd Holmgren were riding a broncho double, when it began to pitch, throwing them off. The Shaffer boy lit on his head, getting a hard jolt that knocked him senseless for a couple of hours. He was brought to town as quickly as possible, placed under the doctor's care and is now getting along a right. The other boy was not injured.

Last year we was able to get the names of most of those who attended the state fair but that is impossible this year. When we say that from 250 500 people from this locality visited the fair, we are not making a very close estimate, but not stretching the truth. It is our opinion that not less than 500 people from the territory within ten miles of Guide Rock attended the fair.

Mrs. Henry Ludlow left for her home in Oklahoma City this morning. Her

mother, Mrs. Burt, accompanies her as far as Red Cloud where a brief visit will be made with relatives.

L. M. Linton received word Wednesday morning that the store room of his son Hoyt, at Oronoque, burned the night before. Mr. Linton left on the first train to see the extent of the damage.

Ruby Adams received a box of peaches from her sister, Miss Alice, who is at Grand Junction, Colo. They are about the size of a pint cup, and look mighty nice. Anything in the shape of fruit looks good to the people within the frozen zone of last May.

Will Ream, the fourteen-year-old son of H. S. Ream cut two fingers of his hand badly last Saturday morning. He was cutting fodder with a horse and cutting sled, when the accident occurred. He came to town and had a few stitches taken, and is waiting with what patience he can muster, for the wounds to heal.

Thursday evening the lightning struck John Beam's barn and burned it to the ground, burning 4 horses, 16 hogs, 50 bushels of grain and all his hay. This makes seven head of horses he has had killed by lightning in the past year. He certainly has had his share of bad luck and we wish him all success in regaining what he has lost.

He has lately solicited his neighbors to subscribe for some of that extra stock the fair association are putting out and has sold sixteen shares or \$160 worth. He says he can sell three more shares.

The paper trust is one of the most vicious concerns praying upon the public. We received notice abruptly last week that on September 1, the price of ready prints would be advanced 25 per cent. This is a pretty big jump for one swipe but another notice claims that print paper will soon be advanced 50 per cent.

## A REWARD OF FAITH.

The Story of a Church Twice Struck by Lightning.

A congregation in a hilly district in Ohio, says the Youth's Companion, bought a small tract of land and erected a church building upon it. Then the question of insurance came up. Mr. Sipes, the wealthiest member, who had contributed more than half the money needed for the new structure, declared that he did not believe in insurance. "This is the Lord's building. He'll take care of it," he said.

His view prevailed, and there was no insurance. In a few weeks the building was struck by lightning and almost totally consumed by fire. Another one was erected, Mr. Sipes contributing the greater portion of the fund as before. This time the demand was almost unanimous that it be insured, but Mr. Sipes again objected on the same ground.

"If it burn down again, brethren," he said, "I'll agree to rebuild it myself."

Again he carried his point. In less than a month the new church was struck by lightning again, and although strenuous efforts were made to save it, the loss was almost total.

"There must be some reason for this, brethren," said Brother Sipes. "I am going to find out what it is."

Thereupon he employed a force of men to sink a shaft on the site of the twice destroyed church. Within a few days a rich vein of ore was found, and the church property was sold for many times the amount needed to buy land in another locality and build again.

"I tell you, brethren," said Brother Sipes, "it pays to trust the Lord. He's a great deal better business manager than anybody in this congregation."

## OLD CARLSBAD.

In Ancient Times the Cure Was Somewhat Violent.

Carlsbad, that fashionable resort in Bohemia, is a very ancient cure place. It has held a royal charter from Kaiser Carl IV. since 1401. History has it that it was the mighty leap from rocky heights to the depths below of a hunted deer pursued by the hounds of Kaiser Carl IV. that led to the discovery of the Sprudel spring and that the deer hunting emperor was the founder of the health resort to which he gave his name.

Originally the Carlsbad cure and the mode of life there, a mode which remained in fashion for at least two centuries, consisted solely in the use of the baths. This, however, was so energetic that we children of the twentieth century are overcome by a feeling of admiration for the doctors who ordered such cures and still greater honor for the patients who could undergo them, for the bath treatment was so severe that it was not inaptly called the "hautfresser," or skin eater. It was only about the year 1500 that Dr. Payer, the town physician of Elbogen, near by, ordered the Carlsbad water to be drunk as a cure. Quoting from the publications of the period and Dr. Payer's remarks:

"I have said that this water must be drunk, and as hitherto it was not usually employed for drinking, but only for bathing, this will appear new to many." The quantity of the water prescribed was in handsome proportion to the "skin eater"—twenty, forty and up to sixty cups of a morning regularly.—Town and Country.

## A Cardboard Planet.

One remarkable achievement of Sir William Herschel was in connection with the planet Saturn. He had arranged to erect his telescope at Windsor castle to enable Queen Charlotte and the ladies of the court to see the wonders of the ringed planet, but on the evening arranged for the observation great banks of clouds covered the sky. However, he explained that that would not matter, and after the instrument had been carefully directed the queen and her attendants looked through it and saw the great planet and its marvelous rings quite distinctly. Herschel, it seems, had expected bad weather and during the day had made a cardboard model of the Saturnian system and erected it in the grounds a lamp at the back providing the necessary illumination.—Westminster Gazette.

## He Wasn't a Gormand.

That wary old fellow, Baillie Macduff, was enticed into a friend's house the other night, and his host managed to win 50 shillings from him at "nap." What is more remarkable, when the baillie had parted with his last shilling he rose, full of wrath.

"Won't you stay to supper?" pressed his host. "We have a fine bit of ham waiting."

"No, not I. Dae ye think I eat 50 shillings' worth of ham?"—London Answers.

## Our Language.

"He's the coming man."  
"Yes; he's one of the best fellows going."  
—Baltimore American.

The great republic shall live as long as the poorest citizen freely expresses his personal and political opinion, and no longer.—Baltimore American.
