## FRUIT JOBBERS BEGIN WAR.

Western Association Charges Railroads With Discrimination.

Omaha, Sept. 9.—Alleging gross discrimination in freight rates against fruit and vegetable growers and dealers, the Western Fruit Jobbers' association will bring formal complaint against the railroads before the interstate commerce commission insuring an investigation far wider in its scope than any yet undertaken by the commission.

The executive committee of the association met at the office of Secretary E. B. Branch and laid plans for action. There were present President H. M. Jones of Sioux City, R. A. Gamble of Minneapolis, J. W. Howard of Denver, T. D. Turner of Oklahoma City, members of the committee, and John Lang of Sioux City, chairman of the board of directors. They represent several hundred fruit jobbers from Chicago to the Pacific coast, comprising the largest and most influential organization of its kind in the country.

All rates on vegetables and fruit from Maine to Oregon and from Canada to Mexico are involved. The work of the commission on grain rates or on coal rates is but a drop in the bucket to the work that will be asked of it in the fruit investigation. If the contentions of the association are sustained the entire rate fabric of the United States will be torn to shreds.

Novelty is presented in the complaint of the jobbers. Instead of raising the common clamor that discriminatory rates are made in favor of certain fruit markets they say the railroads discriminate against the entire fruit and vegetable trade in favor of other lines of business. In other words, rates are reduced from time to time on meat, grain, creamery products and other merchandise and the fruit trade pays the difference with exorbitant tribute.
