

Desperate Coughs

Dangerous coughs. Extremely perilous coughs. Coughs that rasp and tear the throat and lungs. Coughs that shake the whole body. You need a regular medicine, a doctor's medicine, for such a cough. Ask your doctor about Ayer's Cherry Pectoral.

Any good doctor will tell you that a medicine like Ayer's Cherry Pectoral cannot do its best work if the bowels are constipated. Ask your doctor if he knows anything better than Ayer's Pills for correcting this sluggishness of the liver.

INFLAMMATORY RHEUMATISM CURED IN 3 DAYS

Morton L. Hill, of Lebanon, Ind., says: "My wife had inflammatory rheumatism in every muscle and joint; her suffering was terrible and her body and face were swollen almost beyond recognition; had been in bed six weeks and had eight physicians, but received no benefit until she tried Dr. Detenon's Relief for Rheumatism. It gave immediate relief and she was able to walk about in three days. I am sure it saved her life." Sold by H. E. Grice, Druggist, Red Cloud.

Items from "The Chief" of February 28, 1878

Garber's store was chock full last Saturday. Business is brightening up. Most of the schools in the county will close within the next two weeks.

John Garber is at home again, looking fine. He says he likes home better than he did his place in Kansas.

Some of the teachers are fairly jubilant over Mr. Kaley's lecture last Saturday evening.

W. N. Richardson bought eighteen hogs last week of one man, which averaged 425 pounds each.

At the meeting of the burial board to provide a cemetery south of the river J. W. Bogenrief was chosen chairman, J. B. Stanser secretary and John Street treasurer.

A colony from Lewiston, Pa., is looking westward and Webster county is the objective point. Messrs. Albright, friends of Mr. Kaley, and W. H. Strohm were here looking for land upon which to locate the colony.

Among the new arrivals are some from Clark county, Iowa, friends of H. S. Kaley, who came in last Saturday—Henry B. Simons and family, Stroup and Luther Rothrock and Mr. Decker, who will take land in this vicinity.

C. W. Fink is making the necessary repairs on Miner's store building. Mr. Ludlow did the plastering. Mr. Miner will put in a stock of goods about the 1st of April.

Among the new settlers in Cloverton are Messrs. Hogate and Fisher.

M. B. Thompson, our banker from Beatrice, is here and is locating in Mr. Richardson's new building.

MAKE A GOOD INCOME

Start to-day for yourself. If you have any business, we can show you how to make more money in 100 days. We will show you how to make with the same capital invested in any other way. This business is in demand and there is a great demand for the drilling of water, oil and gas wells and deep holes for rock operations. Write for "The Guide" No. 10 and full particulars and proofs of the above statements. The U. S. Government ordered 50,000 copies for use in the Panama Canal.

PANHANDLE, TEXAS,

The lands we are going to call your attention to are in the northwest part of Texas. Take the map of Texas and you can readily see that we are trying to locate you about 650 miles from Kansas City and 500 miles from Galveston the nearest seaboard harbor of any importance, where freight rates by water to England are practically the same as from New York. To transport a bushel of wheat from Hastings, Neb., to New York by rail will cost you 40¢ per 100 lbs or 28.9 per bu. From the Panhandle to Galveston the rate is 9¢ per bu. of a saving of 19.9¢ per bu. Can you figure the advantage that the farmer in the Panhandle has over you? To show you the great advantage the Panhandle has over you, we want to quote a few figures on the sowing and yield of wheat at the experiment station, a short distance from where we offer you these great bargains in land.

Yield of Wheat for 1906 Maska Wheat

Sowing 3 pecks to the acre yields	29.65 bushels, test 62 pounds
" 4 " " " " "	25.65 " " 61 " "
" 5 " " " " "	24.50 " " 60.5 " "

Durum Wheat

Sowing 3 pecks to the acre yields	23.40 bushels, test 62.50 pounds
" 4 " " " " "	22.25 " " 61 " "
" 5 " " " " "	19.29 " " 62.50 " "

Now you have the figures before you for consideration. It will take you but a few minutes to compute the difference that the Panhandle farmer gets more for his grain than you do.

If the experiment station can reach such results in farming and doing it right, you can do the same thing, or can raise 5 bu. less and beat anything you can in this part of the country.

With an average of 24 inches of rainfall for the last twelve years, nothing stands in the road of farmers becoming independent in a short time and fixing himself so he can live at ease.

Is it hot in the Panhandle, is asked by people who are not familiar with conditions in that country. We will say that the average in the hottest months in the year, for twelve years is as follows: June, 72; July, 75; August, 72, and September, 68. This government report was by the U. S. weather observer (Thos. J. Conditon), at Amarilla, Texas, right in the center of the Panhandle.

Water is procured in sand and gravel and is of the very purest quality and has proven very beneficial for the general health of mankind.

We are making these trips to the Panhandle every

First and Third Tuesdays

in each month, and would be pleased to see you and talk it over with you, as we cannot tell you all in a short ad like this.
