

NATIONAL RECOGNITION.

Hot Springs Doctors Famous the World Over For Their Skill in Medical Diagnosis.

Dr. Ben W. Kinsey, chief of staff, of the Hot Springs doctors, who have their Nebraska State Institute permanently located at 14th and O streets, Lincoln, will make a two day visit to Red Cloud March 23 and 24. Considerable comment of the wonderful knowledge of Dr. Kinsey in the matter of medical diagnosis has been made.

Daily papers throughout the United States are continually publishing accounts of the wonderful cures made by these famous specialists at their various state institutes which they have established in many of the larger cities in the United States.

The fact that the Hot Springs system of treatment is endorsed by the United States government is prima facie evidence of the wonderful curative powers of the Hot Springs. And the fact that the United States government has established its army and navy hospitals at Hot Springs, Ark., goes to show that the Hot Springs system of treatment is recognized by the highest authority.

It remained for Dr. Kinsey to discover the secrets of the Hot Springs and to perfect his wonderful system of home treatment, so that it could be used anywhere in any home, without inconvenience, annoyance, or publicity and without detaining the patient from his usual occupation.

As has been printed in other issues of this paper, the Hot Springs doctors are an association of physicians. Each one of them is recognized as being a master specialist. They have located institutes throughout the various portions of the United States, with one or more of the Hot Springs doctors at each institute. To these institutes, the sick come in ever increasing numbers to have their ailments diagnosed by a master specialist and treatment prepared for home use. The idea of establishing these institutes, is to bring this wonderful Hot Springs system within the reach of those who cannot afford time or money to go to Hot Springs, Ark. Knowing that there are numbers of people who cannot even go to the nearest state institute of these famous Hot Springs doctors, the plan was conceived to establish smaller branch institutes in various centers of population.

A representative of the Hot Springs doctors visited Red Cloud with the view of establishing a branch institute here. So well pleased was he with our city that he promised to have Dr. Kinsey make us a two day visit, March 23 and 24. The object of the visit of Dr. Kinsey is to secure a few cases quickly that he can cure, so that in case a branch institute is located here in the spring, these cured patients will be good advertisements of this wonderful Hot Springs system of treatment. Dr. Kinsey does not claim that he can cure all cases, but he only solicits difficult cases, cases that other doctors have given up as hopeless. Incurable cases will not be accepted for treatment at any price or under any conditions. Dr. Kinsey holds a government license to treat chronic diseases, such as chronic disease of the stomach, liver, kidneys, blood, nerves, lungs and heart, and diseases of women and men. This he does by means of medical scientific methods of treating diseases by removing the cause with the home treatment, which obviates the necessity of running back and forth to the office and he does not interfere with the employment or business. The Hot Springs doctors make no mistakes, they cannot afford to. They accept for treatment only curable cases and take no money from those that are incurable.

To prove that chronic diseases are the life study of the Hot Springs doctors and that they know the human body to the most minute detail, Dr. Kinsey will undertake to diagnose any case in a few minutes time describing every ache and pain without even asking a single question. To aid in this diagnosis, Dr. Kinsey carries with him the most wonderful instruments of his own invention, and used by no doctors but the Hot Springs doctors. If you have any chronic or long standing trouble do not fail to call at the Royal hotel March 23 and 24 and take advantage of his grand free offer,

which is to give consultation and examination absolutely free of charge and free treatment except for the bare costs of medicines used. Remember the date and place.

RESOLUTIONS.

We most earnestly endorse the wise, fearless and patriotic administration of President Roosevelt. We commend his firm stand against menacing evils, no matter found, and his determination to enact the "square deal" regardless of class or condition, whether affecting organized wealth or organized labor. We wish to see Roosevelt's policies continued, and for that reason we commend and endorse the man of his choice to succeed him—the Hon. Wm. H. Taft—a man whose breadth of knowledge and experience, whose judicial mind and high sense of justice peculiarly fit him to carry on the wholesome policies begun by the present administration.

We also commend and endorse the statesmanlike administration of Gov. Sheldon and the action of the last legislature in passing laws fulfilling every pledge made by the republican party to the people of the state; and we endorse the efforts of the state railway commission in its endeavor to carry into effect the railway commission law and laws relating to the regulation of freight and passenger rates and the enforcement of the anti-pass law.

Resolved, That we unqualifiedly endorse the candidacy of Hon. Charles W. Kaley for delegate to the national republican convention; and that we instruct the delegates to the republican congressional convention to be held at Hastings, March 9, 1908, to use all honorable means to secure his election.

And Be It Further Resolved, That we instruct the delegates to the state and congressional conventions to support resolutions in said convention endorsing the candidacy of Hon. William H. Taft for president of the United States and instructing the delegates selected to attend the national convention to use all honorable means to secure his nomination.

Resolved, That we recognize in James E. Delzell of Lexington, Neb., a gentleman of educational and moral attainments of the highest degree and a man who would make an excellent state superintendent of public instruction; and we now therefore endorse the candidacy of Prof. Delzell for the office of state superintendent and recommend him to the republicans of Nebraska for their earnest consideration at the primaries on Sept. 1, 1908.

We commend the republican members of congress from the state of Nebraska for their zeal and activity in behalf of the people of Nebraska and the nation in upholding the policies of President Roosevelt which are at all times for the betterment and perpetuation of our great republic.
