

Revival Sweeps Inavale.

[Continued from first page.]

this time, and when the revival began the band of workers soon saw the results of their prayers.

One of the best features of the revival has been the awakening of our people to the possibilities of gospel music. This has been full of life and the young people have learned that they can enjoy church music just as well as rag-time and cake-walk varieties. Even the children have scrambled for places in the choir and the school yard has rung at recess with the strains of gospel songs. "Old Time Religion" has been an especial favorite with them. There is something so childlike and unaffected in this old melody that it makes it very powerful in the voicing of the gospel. The lines.

"It makes me love everybody,
It makes me love everybody,
Ah! its good enough for me."

are great favorites and have done much to promote harmony and warm the hearts of the people.

Some of our business men have learned that a revival of this kind instead of hindering their business will help to promote the interests of the town. It is no doubt better than a street fair, and our people have taken a greater interest in the meetings, doubtless, than they ever would at a chautauqua assembly. Besides being spiritually edified they have been entertained and instructed along many lines that are helpful.

Some of our business men chuckled with satisfaction at some things Mr. Galloway said in the meeting the other night. He requested the ladies to remove their hats for the comfort of those behind these hats. All but two or three did so. Then the evangelist added, "unless you got them at Sears & Roebuck's. If you got them there we will be glad to have you keep them on." Then the gorgeous headgear came off, the owners smiling good naturedly.

Inavale has been most fortunate in having three young men here from Minden who have done splendid service in personal work. These boys were converted in the great revival conducted by Mr. Hicks and Mr. Galloway in Minden and are soon to enter the Moody Bible Institute, Chicago.

One of these is Will Patterson, who was saved from a drunkard's life. The other night after the meeting had dis-

missed Will found a young man who was intoxicated and got him interested about his soul. He found Mr. Alexander who explained to him the way of salvation and a group of them knelt in the church and had a prayer. The penitent prayed the publican's prayer most earnestly and Mr. Patterson took him to spend the night with him so he could help him and sympathize with him. The other two boys are "Dave" Adams, the crack base ball pitcher of the Minden league, and Antone Nelson, another player of the same team. These two played with Inavale against the Red Cloud nine last Monday. "Dave" excited much interest by his skillful curves. He is one of the best pitchers in Nebraska. He is entering into religious work with as much zeal as he displays on the diamond. All these young men have made many friends and had a most wholesome influence on our boys and young men.

Mr. Alexander and Mr. Galloway will begin a meeting at Lawrence at the close of this, and probably be at Bladen about the 15th of April. We feel that the churches have been given an uplift that will last for all time by their coming to Inavale, the people there will remember them with much interest.

A WORD FROM THE EVANGELISTS.

To the Editor of the Chief:

We wish jointly to express our thanks for, and appreciation of, the courteous treatment accorded us by the people of Inavale. They have co-operated with us in all things, and of course such a blessing could not have come upon them without earnest prayer and personal work on the part of the church.

The Lord's word says that if his people will humble themselves and call upon Him in prayer He will "revive as the corn." This He has certainly done.

We also wish to make a public acknowledgement of the consecrated service of the pastor, Rev. Hill. We regard him as one of the noblest of the Master's servants. He is wide-awake, he is fearless, he is kind, he is true. —Luke 24:1.

E. S. GALLOWAY,
HOMER ALEXANDER.

COMMENDATION FROM PASTOR.

In a number of years in the pastorate I have met and worked with many evangelists, but none have given me as complete satisfaction as Messrs. Galloway and Alexander. I believe them to

be thorough Christian gentlemen and fully consecrated to their work. They help and not hinder the pastor, and when the meeting is over it is easy for the pastor to gather up results. Words are inadequate to express my appreciation of the noble work done at Inavale. I can most heartily recommend them to any one needing the services of good evangelists. We were indeed fortunate to secure such workers for Inavale. In a town of 135, 124 of these were converted.

Helen Walters Rowland.

Blue Hill Leader.
Helen Walters Rowland died at the home of her parents in Blue Hill after an illness of only a few hours' duration, on Friday, March 13, 1908. The funeral occurred from the family home last Monday (the 16th) morning at 10 o'clock, Rev. Priestly of the Methodist church preached the funeral sermon. Many from the various churches and lodges of the town were in attendance and especially the ladies of the D. of H. and P. E. O. organizations. Deceased was born in Blue Hill, Nov. 26, 1888, and grew to womanhood here. She was married to R. E. Rowland April 13, 1906. She leaves a son only a little over a year old, a husband, a father and mother, Mr. and Mrs. Walters; two sisters, Mrs. W. C. Frahm and Mrs. E. R. Horton of Crown Point, Ind., and two brothers, Carroll and Everett Walters. Besides her relatives deceased leaves a host of friends.

M. L. Schuman.

Blue Hill Leader.
The citizens of Blue Hill were grieved last Friday to learn of the death of Louie Schuman, one of the pioneer residents of the town. The deceased was born in Wilsnak, Germany, Nov. 13, 1844, and came to America at the age of 22, and settling in Illinois where he remained until 1879 when he came to Nebraska and settled in Blue Hill. He has resided here ever since. He was married in 1880 to Miss Kotherina Luhn, and to this union nine children were born, six daughters and three

PANHANDLE, TEXAS.

The lands we are going to call your attention to are in the northwest part of Texas. Take the map of Texas and you can readily see that we are trying to locate you about 650 miles from Kansas City and 500 miles from Galveston the nearest seaboard harbor of any importance, where freight rates by water to England are practically the same as from New York. To transport a bushel of wheat from Hastings, Neb., to New York by rail will cost you 46c per 100 lbs or 28.2 per bu. From the Panhandle to Galveston the rate is 8c per bu. of a saving of 19.9c per bu. Can you figure the advantage that the farmer in the Panhandle has over you? To show you the great advantage the Panhandle has over you, we want to quote a few figures on the sowing and yield of wheat at the experiment station, a short distance from where we offer you these great bargains in land.

Yield of Wheat for 1906—Maske Wheat

Sowing 3 pecks to the acre yields 29.65 bushels, test 62 pounds
" 4 " " " " 25.65 " " 61 "
" 5 " " " " " 24.50 " " 60.5 "

Durum Wheat

Sowing 3 pecks to the acre yields 23.40 bushels, test 62.50 pounds
" 4 " " " " " 22.25 " " 61 "
" 5 " " " " " 19.29 " " 62.50 "

Now you have the figures before you for consideration. It will take you but a few minutes to compute the difference that the Panhandle farmer gets more for his grain than you do.

If the experiment station can reach such results in farming and doing it right, you can do the same thing, or can raise 5 bu. less and beat anything you can in this part of the country.

With an average of 24 inches of rainfall for the last twelve years, nothing stands in the road of farmers becoming independent in a short time and fixing himself so he can live at ease.

Is it hot in the Panhandle, is asked by people who are not familiar with conditions in that country. We will say that the average in the hottest months in the year, for twelve years is as follows: June, 73; July, 75; August, 72, and September, 68. This government report was by the U. S. weather observer (Thos. J. Consodim), at Amorilla, Texas, right in the center of the Panhandle.

Water is procured in sand and gravel and is of the very purest quality and has proven very beneficial for the general health of mankind.

We are making these trips to the Panhandle every

First and Third Tuesdays

in each month, and would be pleased to see you and talk it over with you, as we cannot tell you all in a short ad like this.
