

# A Hair Dressing

If you wish a high-class hair dressing, we are sure Ayer's Hair Vigor, new improved formula, will greatly please you. It keeps the hair soft and smooth, makes it look rich and luxuriant, prevents splitting at the ends. And it keeps the scalp free from dandruff.

Does not change the color of the hair.

Formula with each bottle Show it to your doctor Ask him about it, then do as he says

## Ayer's

At the same time the new Ayer's Hair Vigor is a strong hair tonic, promoting the growth of the hair, keeping all the tissues of the hair and scalp in a healthy condition. The hair stops falling, dandruff disappears. A splendid dressing. Made by the J. C. Ayer Co., Lowell, Mass.

Miss Mamie Tompkins principal elect of the Guide Rock school is being congratulated by her many friends on the success she has attained. Before she was quite fourteen years of age she completed the course here with high honors. Then after a couple of years spent in teaching she has been away at school. She has now completed her course at the Kearney Normal with very high grades. Thus again we notice that diligent, faithful effort has its reward.

### Strawberries Canned Without Cooking.

Have your jars perfectly clean and dry, then take equal parts of fresh berries and sugar, and mix and mash thoroughly. To accomplish this, take only a small quantity in a dish at a time, that you may be sure every berry is mashed. Put into the jars and seal immediately, inverting the jar for a short time before putting away.

The work is easily and quickly done as there is no heating. My berries canned in this way last summer kept perfectly and have preserved their delicious flavor unimpaired.

Strawberry shortcake equal to that of the summer has been an enjoyment whenever we wished through the winter.—From Woman's Home Companion for June.

### Electric Farming.

Electricity is being extensively used in connection with farm work in Europe. This is especially true of Germany where a great many farmers, living near large towns or electric transmission lines, have installed motors to do most of the hard work about the farm buildings.

One group of farms in Saxony gets an abundant supply of current from an adjacent town by overhead transmission on wooden poles. Sixteen fixed electric motors are installed about the various farm buildings for cutting feed, oat crushing, pumping and for operating other farm machinery. Sixteen portable motors are provided which may be used to drive the pumps, circular saws, threshing machinery, etc., at any point where their services are required. About a thousand incandescent and nine arc lamps light the buildings and yards.

This co-operative plan of securing electric power makes it both cheap and convenient for the farmers, as all shared in the construction of the transmission line which is one of the largest

items in securing electric power. Then each farmer purchases what motors he needs and pays only for the current he individually consumes.—Electric News Service.

### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. Cheney & Co., Toledo, O. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

### Live Stock Letter.

[J. A. Rickart, L. S. Correspondent.] Kansas City Stock Yards, June 1.—Floods in the south and crippled railroad service held down cattle receipts all of last week and the small total of 22,000 head arrived. The market improved rapidly after Tuesday, and closed a gain of 15 to 40 cents on the steers, the medium kinds showing greatest gains, while cows and heifers closed 15 to 25 cents higher. Receipts are moderate today at 9,000 head, and light at other markets, and the market is again higher, steers strong to 10 higher and cows and heifers up 10 to 15 cents. While the market made a good gain last week it was solely because of the meagre receipts, and not because of any broadening of the outlet for the meat, which packers claim is still unsatisfactory. The light run enabled killers to clean out their coolers to a certain extent, and proved a good tonic, but the situation will not stand any heavy receipts at present. Several sales of prime steers were made today at \$7 to \$7.25, the latter price highest this year, except for a sale of two loads on last Wednesday at the same price. Steers sold at \$7 in the quarantine cattle here. Wintered cattle from Oklahoma will start freely this week and next. Bulk of fed steers sell at \$5.75 to \$6.50, cows range from \$3 to \$5.25. Stockers and feeder trade is of small volume and will continue so for another month yet, prices 10 to 20 higher than a week ago, strong today, stockers \$3.50 to \$5.25, feeders \$4 to \$5.40.

Hog run last week was 80,000 head, market stronger most of the time, but finally closing with a net loss of 5 cts. Run is 12,000 today, market 10 higher, top \$5.60, bulk \$5.35 to \$5.55, weights below 200 pounds at \$5.25 to \$5.50, exclusive of pigs, which bring \$4 to \$4.50. The month of May showed a small shortage from May last year mainly because of bad marketing conditions the last week. The total run was 355,000 head. Average weight for May was 296 pounds as compared with 212 pounds in May last year.

Sheep and lambs continue to come freely, 30,000 last week, market steady for the week on lambs, but 15 to 20 higher on sheep. Today there are 10,000 head here, market 10 to 20 lower, most loss on lambs. There seems to be plenty of mutton appearing at all the markets, and as the meat does not move freely congested conditions are easily forced, resulting in an unhealthy state of trade. Woolled lambs bring \$5.80 to \$6.10, clipped \$5.25 to \$5.60, best spring lambs \$6.50, wethers and ewes \$3.05 to \$4.40, feeding sheep \$3.25 to \$3.75, goats \$3.10 to 3.50.

Mrs. C. W. Springer will open a school on the kindergarten plan for children between the ages of three and seven years at her home west of town on Monday, June 4th. Tuition \$1.50 per month. The attention and patronage of the public is solicited.

### INFLAMMATORY RHEUMATISM CURED IN 3 DAYS

Morton L. Hill, of Lebanon, Ind., says: "My wife had inflammatory rheumatism in every muscle and joint; her suffering was terrible and her body and face were swollen almost beyond recognition; had been in bed six weeks and had eight physicians, but received no benefit until she tried Dr. Detchou's Relief for Rheumatism. It gave immediate relief and she was able to walk about in three days. I am sure it saved her life." Sold by H. E. Grice, Drugist, Red Cloud.
