Tricky Maoris.
There was quite a large influx of
Europeans at the opening of a public
hall in one of the Taranaki villages.
The Maoris seemed to have developed
a craze for "change." Visitors were
approached by a Maori in this wise:
"You got two single shillin' and te
kipenny for te half crown?" And the
change would be given. Others want-
ed two sixpences for a shilling, 2 shil-
lings for a florin, and so on. By and
by came dinner time. The visitors
trooped in and enjoyed their feed. A
collection was taken up. Not a soul of
them had anything smaller than a
2 shilling piece. That's how the "child
of nature" got home on the civilized
product.

Mapmaking.
The earliest maps of which we have
any knowledge were made in Egypt.
They were wooden tablets, on which
were traced land and sea, roads, rivers,
highways, etc. Marinus of Tyre, 150
A. D., was the first to attempt a map
on scientific principles. The maps in
use by the Greeks and Romans were
fairly accurate, so far as they went,
but those in use during the middle
ages were alarmingly inaccurate. It
is only within recent years, say since
the middle of the last century, that it
was possible to make a complete and
reliable map of the world, and even
yet the best map is subject to slight
changes.—New York American.

Ben Marshall Found Guilty.
Omaha, June 6.—It took a jury in
the criminal court just fifteen minutes
to decide that Ben Marshall, colored,
was guilty of attempting to criminally
assault Miss Mollie Grann. Besides
the Grann assault Marshall is also
charged with a similar assault upon
Mrs. Anna Grabowski, a few days be-
fore. Eight years ago he was charged
with the same offense against a little
girl, but the jury found him guilty
only of assault and battery and he
served a ninety days' sentence in jail.

STREAMS ARE OUT OF BANKS

Farms Flooded and Railroad Traffic
Blocked—One Fatality Reported.

Fairbury, Neb., June 6.—Heavy
rains are reported all over south-
central Nebraska. Every stream is out
of its banks, farm property in the bot-
tom lands is badly damaged and rail-
road traffic is blocked. A washout of
a bridge south of this city has com-
pelled the suspension of traffic on the
main line of the Rock Island road,
and all trains on the St. Joseph and
Grand Island road between Fairbury
and Marysville, Kan., have been an-
nulled. The night's rainfall in this
county varied from five to seven inches.
Near the town of Jansen, east of
this city, a fatality is reported. Joseph
Flaming, a farmer, was aroused at 4
a. m. and found the floodwaters of
Cub creek flowing into his house.
Flaming and his family fled on horse-
back, the father leading the animal,
while his wife and two children clung
to its back. Their three-year-old child
was swept away and drowned. Sev-
eral other houses near Cub creek are
submerged, water reaching to the eaves.

CONSTRUCTION STARTS SOON
Actual Work on Omaha and Nebraska
Central Begins in Little While.

Omaha, June 8.—S. C. Nelson has
been appointed assistant to the vice
president of the Omaha and Nebraska
Central railway and is preparing to
begin active work.
"Construction work on the Omaha
end of the line will begin soon," said
Mr. Nelson. "The preliminary sur-
veys have been made, the right-of-way
secured practically all the way and
very little remains to be done before
construction work can be started. The
road certainly will be built and that
as rapidly as is consistent with con-
servative management."

Statistics on Crops.
Lincoln, June 8.—Returns from
county assessors are being received by
Labor Commissioner Ryder, which,
when compiled, will show what there
really is in Nebraska. The schedules
sent out by the labor department in-
cluded space for the number of acres
of farms, number acres under cultiva-
tion, owner, tenant, number of milk
cows, number of chickens and other
fowls, and other information not re-
ported to the state board, but essen-
tial in getting out statistics relating
to the wealth of the state.

NO NEW CLASSIFICATIONS

Railway Commission Likely to Stop
by Changing Specific Rates.

Lincoln, June 5.—It is by no means
certain that the state railway commis-
sion will issue an entire new classifica-
tion of freight rates. But it is prob-
able that the commission will make
reductions in the rates for the ship-
ment of certain commodities and from
time to time make still farther reduc-
tions on other commodities. This
practice may be kept up until the com-
mission feels that the Nebraska rates
are just and not exorbitant.

Since the hearing granted the rail-
road officials, followed by the hearing
granted the railroad employees, to-
gether with its investigations along
other lines, the commission has decid-
ed the making of a new classifica-
tion of rates is a big task and one that
will require a long time. On the other
hand, one member of the commission
believes that by picking out here and
there certain commodities upon which
the rates seem high and making reduc-
tions in those instances it probably
would accomplish more for the people
than if it made a sweeping reduction
of a certain per cent in all rates.

Missouri Pacific Lost \$400 a Mile.
Lincoln, June 6.—In a statement
filed with the state board of equaliza-
tion the Missouri Pacific railway offi-
cials assert that the loss last year
amounted to \$400 a mile. The Mis-
souri Pacific has 297 miles of track in
Nebraska.

Train Robber Gets One Year in Prison
Lincoln, June 8.—A sentence of one
year at hard labor in the state peni-
tentiary was pronounced by Judge
Stewart upon John Donaldson, who
pleaded guilty to the charge of burglar-
y. He had been caught robbing pas-
sengers on a Rock Island train.

Bryan Speaks to Woodmen.
Lincoln, June 8.—William J. Bryan
delivered the memorial address to
Modern Woodmen in this city. He
spoke highly of the value of fraterni-
ties and pointed out their need in our
modern system of living.

Andrews Talks to Graduates.
Lincoln, June 9.—To the members
of the senior class of the state univer-
sity, Chancellor E. Benjamin Andrews
delivered the laureate address. The
exercises were held in the audi-
torium of the Temple building.

MacLean Orator at Lincoln Banquet.
Lincoln, June 9.—At the annual ban-
quet of the Phi Beta Kappa of the
University of Nebraska, Chancellor
George E. MacLean of the University
of Iowa delivered the oration.
