SECURE AN IRRIGATED FARM

The best chances of the day in the Big Horn Basin and Yellowstone Valley. Government irrigated lands one-tenth down, remainder pro-rata in ten years witho t interest. Corporation irregated lands equally cheap and favorable. A paramo at and rusing fact in this regon is the never failing water - upply. Do not make your new home in any irrigated region witho t a full rt dy of the water supply.

EROUGHT OBEDIENCE AT ONCE.

Mr. Drayton's Diplomatic Way of Dealing with Tommy.

In the Drayton household it is said that the father of the family has a way of presenting alternatives to his children that never fails to bring them

"I wish you would speak to Bobby," said Mrs. Drayton one night. "I've told him to take his medicine and then jump into bed, and he won't do it. He just hops round, and says he doesn't want to take the medicine and he doesn't

want to go to bed!" Mr. Drayton stepped to the door of Bobby's room and stood there, tall,

grave and impressive. "Bobby," he said, firmly, "if you don't take your medicine at once, and then jump into bed, you will be put to bed, do you hear me, put to bed, without having your medicine at all!"

Upon which Bobby, alarmed and confused, swallowed his allotted portion and meekly retired for the night .-Youth's Companion.

Gymnastic Burglars.

A school for burglars has been discovered by the police at Toulouse, France, and 54 burglars and "professors" have been arrested.

Classes were held there every day, in which the burglars practiced gymnastics, and were taught the various details of their interesting profession by experts, who drew comfortable salaries.

All the members of the school are well known to the police, for one of the necessities of membership was a proof that the would-be member had of a time ay beatains suce sainly, and in the the the protos fem for a large to manages.

Vagarica of the Plumb Line.

One of the curious things that men of science have discovered in their innumerable efforts to measure and map the earth with the least possible error, is the fact that there are places where the direction of a plumb line is not vertical. Irresularities of density in the crust of the globe may produce this phenomenon

A remarkable instance has been found in the island of Porto Rico, where the deviation from the vertical is so great that, in mapping the island, the northern and southern coast lines. as shown on the older maps, had each to be moved inward half a mile.-Illustrated Sunday Magazine.

Sweet-Smelling Herbs.

The nice old custom of putting lavender and other scented herbs in linen presses and other places containing clothing is not so much practiced now as it was a generation ago, orris-root, satchet powder and other things being used instead. Have you any conception of how old the custom is? Turn to the twenty-seventh chapter of Genesis, in the Bible, and you will read that Jacob, when old and blind, "smelled the smell" of Jacob's raiment, which he compared to the "smell of a field which the Lord hath blessed." It is evident that Rebecca had put sweet-smelling herbs where her favorite son's clothing was kept.

The Eternal Feminine.

"I'll tell you how I'm saving money so that I can entertain friends at din ner, Marie," said a stenographer to her chum as they soared upward in an office elevator. "Whenever I am invited to dine out and do not have to pay for my own dinner, I put the amount I save in my little iron bank. However," she continued, with the particularly pleasant purr that sometimes precedes a scratch, "that plan won't do you any good, will it, dear, for you are never invited out, are you?"
