The Missouri Girl a comedy that has stood the test of twelve years before the public and never yet failed to please, willbe theoffering at the opera house December 10th This production is being advertised as the "greatest fun event of the season" and amusement lovers who remember the show in previous years say the phrase is aptly selected. From first to last the play is an avalanche of laughter."Zeke Dobson" the gawky country lad, the chief fun-maker is pronounced by the critics the greatest comedy character in the history of the stage. The charactor is a natural one, just such a boy as everyone has not, and still the sitnasion are so funny and his actions so ludicrous that it keeps the audience screming with laughter. In the second act the country birthday party gives an opportunity for some excellent vaudeville country dance, styled the glod hoppor dance, which is said faithfully reflects the dancing that is best liked by the native of the southwestern Missouri.
