Prison Contract Unsigned.

Although fifty additional men were put to work by the prison contractor Monday, no contract for the additionspecial delivery stamp, and return to al men has been signed by the state officers and warden of the peniten-

The Lee Broom and Duster Co. offered to take fifty men at 60 cents a day, but this order was changed after the governor refused to accept the offer of a St. Louis man who desired to make clothing for working men. Mr. Lee's contract as presented to the board, now shows he will pay only 55 cents and that in consideration of taking additional men he asks to have his old contract changed insofar as to give him the right to furnish overtime work, but not to be compelled to furnish it. He also wants free power for the fifty additional men and also asks for most all of the available shop room now used by the state. He asks that the contract for the additional men be made good for three years from July 1.

Express Companies Object.

The express companies still resist ing the reduction of rates fixed by the Sibley bill, have filed exceptions to the report of Rerefee John T. Sullivan. The referee found that the Sibley act is not confiscatory and recommended judgment for the state and against the express companies. This recommendation, if adopted, will result in an order making perpetual the temporary restraining order enjoining the companies from violating the provisions of the Sibley act.

and unanimously passed. The monument is to be erected at the division of Central avenue and Twenty-fifth street.

Officers of Grand Lodge.

Omaha, Neb .- Election of officers was the principal work of the Nebraska Masonic grand lodge Wednesday, resulting as follows.

M. Dowling, Omaha, grand master; Harry A. Cheney, Creighton, deputy grand master; Henry Gibbon, Kearney, grand senior warden; James R. Cain, Stella, Neb., grand junior warden; J. B. Dinsmore, Sutton, grand treasurer; Francis E. White, Omaha, grand secretary; Robert W. French, Kearney, grand custodian; Alpha Morgan, Broken Bow, grand marshal; T. M. Davis, Beaver City, grand senior deacon; Jacob King, Omaha, grand tyler,

Blind Students Graduate.

Nebraska City, Neb-The graduating exercises at the institution for the blind took place at that institution through the courtesy of Colonel Glass-Wednesday. There were exercises in the chapel all day and the well advanced scholars took part, as well as the faculty. An interesting program was carried out. There were several graduates from each of the various departments.

Paper Changes Hands.

Fullerton, Neb .- J. W. Tanner has closed a contract with Millard S. Binney and Henry M. Kellog for the sale er, seventy-five horse power were of the News-Journal, the transfer to take effect July 1. Mr. Tanner has been in the newspaper business here, with slight intermission, for over twenty years. He expects to move with his family to Idaho.

Killed By Lightning.

Geneva, Neb .- Mrs. Thomas Edward, living five miles east of here, was struck by lightning and instantly to safeguard the lives of its passenkilled in the heaviest rain storm that has visited this place for twelve years. A barn on a farm belonging to Charles Warner, four miles southeast of town, was struck and burned to the ground.

New Hotel for Hastings.

Hastings, Neb .-- Plans have been drawn and accepted for a \$150,000 hotel to be built in Hastings by a local capitalist. There has been much talk in the last few years of erecting a hotel here by a corporation of fraternal orders and citizens, but this is a venture of an individual and authority is given for the statement that the building is a certainty.

The building is to be four stories and have 125 outside rooms. Architects are expected here early next

The corn show committee of seven. appointed by the Kearney commercial club to investigate and make a complete preliminary report to the club, will recommend that a show to be called the Buffalo County Corn and Agricultural exposition be held during the second or third week in October. the show to be open to all counties of western Nebraska, and that an initial fund of \$2,000 be raised for the pur-DOSe.

A large number of persons at the Electrical Show in the Auditorium building, Omaha, recently witnessed one of the most remarkable demonstrations of "wireless" energy heretofore made in any country-in fact, a feat not accomplished before in the worlds history, so far as is known-When Dr. Frederick H. Millener, experimental electrician, Union Pacific railroad company, Omaha, turned on the lights in the building, the impulse being sent from the Fort Omaha wireless tower, six miles distant. This demonstration was made possible ford, Signal Corps, U. S. A. The wireless impulse operated on a specially constructed coherer (which is very delicate and will receive the faintest impulse) similar in construction to

that used about a year ago on the electrically controlled (by "wireless") truck in the shop yards of the Union Pacific at Omaha. By means of a large solenoid switch, which is closed when the impulse passes through the coherturned on and the Auditorium lighted. By means of a similar mechanism the power was turned off and the operation repeated several times-in other words, the local circuits of the Auditorium were closed by wireless im-

beginning to realize the immensity and importance of the work being done by the Union Pacific railroad in its efforts gers and the property of shippers, via its lines, and, by reason of the experimental work being done by it, what an important factor it is in this country's progress The twenty-fifth anniversary of the

ordination of Rev. Thomas Cullen, pastor of St. Joseph's Catholic church of York, to the priesthood was celebrated Tuesday. The congregation and many of the priests of the Lincoln diocese gathered in York to help him observe the event.

Mr. Tibbels, eighty-two years old, living fifteen miles northeast of Dickens was almost instantly killed at her home Friday night. She was living in a sod house and the walls and roof tumbled in without warning. She was week to look over the site preparatory blind and had been an invalid for about a year.

Submarine Is Lost.

Sebastopol-Hope although it is slight, is entertained that the twenty men who went down in the Russian submarine Kambala, which was sunk in collision with the battleship Ratislaw during maneuvers Saturday night are still alive. Desperate efforts are being made by officers and men of the Black Sea fleet, with the assistance of divers and salvage workmen from Sebastopol, to raise the submarine before the imprisoned men succumb to the vitiated air. Admiral Bostrem, commander of the naval forces in the Black Sea has taken personal charge of the pontoons, one of which is equipped with a powerful holsting crane, assembled at the scene of the catastrophe. All through the afternoon divers and mechanicians were busy in an endeavor to fasten chains around the hull, which lies in an awkward position about twentyeight fathoms down, in order to haul it to the surface. So far their efforts have not been successful, but reports reaching shore indicate that there is a good chance of raising the boat.

Apparently the submarine was not crushed as had been feared.

Many Dead in Quake.

Marseilles-From seventy-five to 160 dead and 100 injured is Saturday's est timated total casualities as the result of the earthquake which devastated several towns and small villages in the southernmost part of France, particularly in the departments of Herault and Bouches du Rhone. Great suffering is reported from the remoter places, owing to a lack of bread and the necessaries of life, before the arrival of assistance.

The casualities may be greatly increased, as the ruins have not yet been entirely searched. The villages of St. Cannat and Rognez, were completely demolished by the earthquake and Lambesc, which is twelve miles from Aix, suffered heavily. According to advices received here a number of wounded are still imprisoned in the ruins, and soldiers are working desperately to rescue them.

A Lessened Lumber Output.

Washington-The lumber production in the United States was less in the calendar year, 1908, than in the preceding year, according to a report issued by the census bureau. The decrease amounted to 17.3 per cent, or from 40.256,154,000 to 33,289,369,000 feet. While practically every section of the country shared in the decrease. it was most marked in the centers of heavlest production, that is on the Pacific coast, and in certain parts of the yellow pine belt.

pulse from Fort Omaha. The public is
