**FOR COUNTY SUPERINTENDENT.**  
 We are Authorized to announce that Miss Mable Day will be a Candidate for the office of County Superintendent, subject to the will of the Democrat and Peoples Independent parties at the Primary election August 17th, 1909.

Miss Mable Day, candidate for the nomination of County Superintendent is well known to the people of Webster County and her qualifications for the office are well known to all. She is a native of this county and has spent her entire life here. She is a member of the W. C. T. U. and has been active in its work for many years. She is a woman of high character and is well qualified for the office of County Superintendent.

At the annual meeting of the Captains of the W. C. T. U. at Red Cloud, Neb., on August 10th, 1909, the following resolutions were adopted: Resolved, that we support the candidacy of Miss Mable Day for the office of County Superintendent at the primary election August 17th, 1909.

There is a man in Red Cloud, Neb., who has been found capable and efficient in office, in the service of the people as long as he will consent to remain, and we hope this will be the regarding Judge Elson.

George Hadell the Candidate on the Democratic and Peoples Independent primary ticket for County Clerk is a young man that is quite well known throughout the county, as he came to this county 25 years ago. And has been in Hadell and Co's. store a good part of that time. We heartily endorse him as a candidate for this office, and feel sure that he will secure the full vote of the two parties which he has always ardently supported.

Writers of the Democratic and Peoples Independent tickets should not overlook Mr. W. B. Cramer candidate for County Treasurer, when they enter the voting places on the 17th. It has been reported that Mr. Cramer does not want the office of county treasurer but this is a mistake. Read the announcements. Mr. Cramer has for years been identified with the interests of Webster county and is a man of sterling integrity, absolutely honest and reliable.

I desire to announce to the voters of the Democratic and Peoples Independent parties that I will appreciate their support at the coming primary election. I have resided in this county for fifteen years and have had dealings in a business way with a great number of persons and I believe that they will all testify that I have always been square and honest in my dealings with them. If nominated and elected it will be my aim to serve the county in the capacity of sheriff to the very best of my powers and ability. W. M. KIRKPATRICK.

We have a suggestion to offer the base ball association. In as much as our popular pitcher, Jack Masters has been quite sick with typhoid fever why not give him a benefit game?

The association could choose a day when the team is home and no game arranged for let pitchers Clegg and Fugate chose up sides from our own players and fill in with players of former days. This would insure a good game and a big attendance and the association would suffer no financial loss. By all means let us have a benefit game for dear old Jack.

To my Democratic and Populist friends on account of urgent work on the farm it is impossible for me to see you all, so ask you through the Chief for your assistance in my fight for the nomination for Sheriff. I have been a resident of the county for the past 20 years have spent my entire life on the farm. I have never asked for an office before, urge your neighbors and friends to attend the primary as that is the only place you have any choice. So get out and do what you can to nominate a good ticket, then elect it in November. I shall be very thankful for any assistance you can give me. E. W. COLEMAN.

The Chautauqua is now on in full blast and has caused us to "look up" the origin of the idea.

In 1872 John H. Vincent conceived the idea of holding a meeting for Sunday school workers and giving them a wider knowledge of the Bible and the principles which they were teaching and consequently secured the grounds on the shores of Lake Chautauqua in western New York. Here he conducted a kind of school and the idea took at once. People seemed to be hungry for information. A little later he included Greek and Roman history and the people were charmed. From that it was but a step to organized classes, studying through the year, outlines of which were furnished by Mr. Vincent. This was a success from the start and all over the United States classes were formed and people of all classes graduated from courses at home and abroad. Diplomas signed by the organizers of the idea, Father Vincent, were given to the graduates. Many of these graduates have become prominent in their respective fields and have been instrumental in the advancement of the cause of education.

San Jose character has the Chautauqua as a cross between a camp meeting and a county fair. It brings in the best talent, the best intellect and the men of the greatest experience in all undertakings and it is our means of growth. People willingly cast aside the daily duties to visit for a season other lands, or to think other thoughts and return home enriched and better contented with their previous vocations.

The third annual Chautauqua opened here last Saturday with a prelude by the Glee Club and a lecture by Col. G. A. Gearhart. The attendance both afternoon and evening was very good for the opening day. Col. Gearhart was at his best and delighted the audience with his easy manner of delivery and his choice of diction. He always takes high ground and raises the standard of living wherever he goes. One cannot listen to his elevating thoughts without becoming better and he does not make a goodly study talk either. The people of Red Cloud and surrounding country will always welcome Col. Gearhart. The Glee Club furnished the music which was a splendid treat and showed themselves past masters in the art of entertaining. On Sunday afternoon, plans of manager Glen Frank, delivered a very masterly discourse. The young in years he is gifted with force and logic and his lecture or sermon is very favorable commented upon. He has the ability to hold the attention and gives plenty of material for thought. A large audience greeted Mr. Sears in the evening who spoke on a timely and less epiphany. This gentleman is a polished man of the world and was at perfect ease on the platform. Much of what he said was good but we regret that he did not develop a deeper line of thought. However he was listened to with marked attention and people generally were well pleased with his efforts. Thatchers Royal Hungarian orchestra proved to be a veritable musical feast and the people who know what good music is were loud in their praise of this organization. Despite the fact that Campbell Bros. circus were giving a performance in the city upwards of two people gathered at the Chautauqua tent to hear the famous weather prophet Irl Hicks of St. Louis. This was plainly a great disappointment. Mr. Hicks could have told the audience some of the means by which he bases his predictions and they would have listened eagerly for a little information in regard to the weather. But unfortunately he neglected his opportunity and gave only a simple outline of the solar system, such as can be found in the common school geography. In the evening the Morphet's mystified the people with their slight of hand and their happy manner of making one forget one's self. The children especially were charmed with this number. Tuesday afternoon Denton C. Crowl reproduced one of Sam Jones' lectures entitled "Get there and stay there." We doubt if Mr. Jones himself were ever accorded a better attention. Mr. Crowl has a marvelous voice and a pleasing personality. The lecture was greatly enjoyed especially by the people who confessed to have read the book Hozkiah. The evening entertainment was given over to J. Lorenzo Zwickey, the famous Swiss Canadian artist. His drawings were superb and the lecture which went with it was no less beautiful. He not only pleased the eye but he gave real thoughts of value. Mr. Zwickey seems to know that people think and he is not satisfied with an easy coin. Mrs. Florence Richards gave an excellent temperance lecture yesterday afternoon. She is a lady who has traveled extensively and has used her eyes at all times. The large audience gave her marked attention and by their continued applause demonstrated that they were well on the temperance question. She stated in the beginning that she was called to give a lecture on this subject by a woman who was a member of the W. C. T. U. and she was very glad to do so.
