could not hardly chin the pile but Bert King and George Amack tried to get outside of the whole business. They must have had holes in their socks by the way they ate. They feed from both sides until it was thought by friends that they would have to choke them off, but they got so they could tuck the oysters down with their fingers and quit with the promise of an early breakfast.

Bring your hard questions for the state workers to answer. Hear them discuss the child, the boy, the man and the relation they bear to the Sunday School, the church and the community.

A New Passenger Train Promised.

We received a telephone message yesterday from Hastings informing us that a passenger train will in all probability be put on the branch in the near future. Railway commissioners Kenady and Clark held the investigation. Attorney Dillman represented the railroad people and Bernard McNeny represented the people. The principal witnesses were F. W. Cowden, Red Cloud; F. A. Good, Jas. McBride and R. B. Thompson, Cowles; and R. Simpson of Blue Hill.

Mr. McNeny impressed the commission with his straight forward presentation of facts. An adjournment of three weeks was taken to allow the C. B. & Q. to prepare a reply.

All the cities including Red Cloud and Hastings will be greatly benefited if a good passenger train were installed. Prospects are very bright.
