A Special Offer.

The big daily papers find it necessary and profitable to keep increasing their subscription list, and one of the fastest growers is the Lincoln State Journal. This splendid state daily has just opened up another big subscription campaign, offering the paper to Jan. 1, 1911 for only \$2; with Sunday \$2.50. This special rate will bring the business. The Journal has a way of its own—cutting out a lot of expensive methods of getting subscribers and making the low rate to its readers direct. The people of the state as never before are looking to The Journal for the real doings in the state. It is building up its business through reliability and enterprise, especially in covering the state news. Another good thing about The Journal is its policy of stopping every paper when the time is up. If you don't pay for it you don't get it, and when you do pay for it you are only paying for your own paper, not helping to pay for the one sent some deadbeat. You will like the cleanest methods of The Journal people.

The Chief office takes subscriptions and renewals for the Twentieth Century Farmer.
