Sunday School Lesson for June 12, 1910 Specially Arranged for This Paper

LESSON TEXT. -Matthew 15:21-28. Memory verses, 21, 22.

GOLDEN TEXT.—"Great is thy faith; be it unto thee even as thou wilt."—Matt.

TIME -Early summer of A. D. 29, a few weeks after the last lesson. PLACE .- On the borders of the country of Tyre and Sidon, forty or fifty miles northwest of the Sea of Galilee.

Suggestion and Practical Thought. Hatred That Repulses Christ .- V. 21. Why did Jesus leave Capernaum and

Already at the time of his highest fame, the cloud had arisen that was to cover the whole sky. When, interpreting the feeding of the five thousand, Christ insisted upon spiritual food and not literal bread as the supreme gift to men (John 6:22-71), many even of his disciples were offended and walked no more with him. We have already seen (lesson 7) the delegates from the scribes and Pharisees of Jerusalem as they watched him to catch him in some word or act by which they could bring a charge against him.

What was this charge that the Pharisees sought? That the disciples of Jesus ate with unwashed hands-not hands that we would consider unclean, but hands that had not been washed according to the Pharisaic rules tha had grown up.

What position did Christ take regarding such observances? That the Pharisees were hypocritical, wasting their thought and time on empty regulations while they transgressed the real law of God.

What was the importance of this controversy? "These twenty verses (Matt. 15:1-20) sum up the great controversy of the New Testament," that between the religion of the letter and external obstacles and the religion of the heart, between what St Paul calls "the righteousness which is of the law and the righteousness which is of God by (or grounded upon) faith," Phil. 3:9."-Cambridge Bible

What was the effect of the controversy on Christ? This hatred and bitter opposition drove Jesus into retire-

ment again. Where did he go this time, with his disciples? Into the coasts (borders, region) of Tyre and Sidon. These flourishing seaports, the capitals of Phoenicia, are not far from the Sea of Galilee, Tyre only about 35 and Sidon 55 miles.

Love That Christ Seeks .- V. 22. flow did Christ succeed in his plans for rest? "He could not be hid," says

How did this mother approach tion. Jesus? She must have forced her way into the house against opposition. She fell at Christ's feet (Mark) and cried, ticed over the edge of a third story doubtless over and over: "Have fire escape, by the melodies of a mercy on me, O Lord, thou son of street plano, that has ever been

How did the woman overcome these obstacles? By calling Jesus "Lord" and "son of David," thus showing some knowledge of the Jewish Mes-

The Second Test was silence. "He answered her not a word."

How did this woman meet this test of silence? By her persistence; she continued her beseeching cries.

The Third Test was the opposition of the disciples.

How did Christ answer the disciples' selfish urgings? By a remarkable statement of the unity and restric-tions of his mission: "I am not sent but unto the lost sheep of the house of Israel."

How did the mother meet this new obstacle? By ignoring the disciples and going straight to Jesus once more. The Fourth Test was an absolute denial from the lips of Jesus, or what seemed such: "It is not meet to take the children's bread, and to cast it to

How did the mother meet this obstacle? "Truth, Lord, yet dogs eat of the crumbs which fail from their mas-

ter's table." The Suppliant Rewarded .- V. 28, How did Jesus receive this saying? With evident and profound satisfaction: "O woman, great is thy faith."

How was the noble mother rewarded for her persistence and faith? By the complete cure of the little girl from that very hour, the precise moment when Christ had pronounced the

words of bealing. Illustration. "Everywhere faith, or the capacity of receiving, has a power to claim and demand the thing which it needs. You plant a healthy seed into the ground. The soil acknowledges its power; no sooner does it feel the seed than it replies; it unlocks all its treasures of force; the little hungry black kernel is its master. 'O seed, great is thy faith,' the ground seems to say; 'be it unto thee even as thou wilt;' and so the miracle of growth begins."-Phillips Brooks. it is persevering. It recognizes the

Snake Routs Woman From Her "Home"

MEW YORK.-Say, if you were a lady wearing a chantecler hat with a horned owl upon it and when you like a bracelet about her fair wrist. woke up and found a common or garden snake in your lap the horned owl failed to make good by snatching the reptile and flying away with it, what would you do? Wouldn't you give that chantecler the hook? Mary Maloney did, anyway.

Mary Maloney, Battery park's leading settee holder, had just such an experience one day. Mary arrived in Battery Park after closing her apartments on Blackwell's island for the summer. Blackwell's is all very well during the major part of the year, but the really elite make it a point of beating it away with the first hot days, and when it comes to beating it away Mary is in the van.

Immediately on reaching Battery park Mary opened her bungalow, which same is the first bench to the hats." left as you come out of the aquarium. Accordingly Mary was inhabiting her bench around noon, indulging in a siesta. Dreamily she opened her eyes and as she awoke refreshed by the cool breeze from off the bay she felt something in contact with her arm. Instantly she sat up and took notice. There was a snake wrapped

Well, everybody said afterward that his first thought was how maybe the siren on the fireboat New Yorker had broken its valve. Then it was seen that no fireboat could let out a screech so shrill, and all the settee holders, rising up in alarm, flocked to see what was the matter with Mary.

But they found her strangely composed. She had throttled that serpent with a crook of her little finger and as the reptile east a dying glance full of anguish at her Mary folded her arms, and, addressing the surrounding populace, remarked:

"Say, do I look like Eve? I knew perfectly well he was real because the ones I see is orange color, and then I don't generally see them, only red, white and blue turkeys with straw

A murmur of admiration arose from Mary's audience at the clearness of her logic and Policemen O'Mara and Flynn, who had hastened to the spot, after batting the vanquished reptile over the head with their nightsticks,

"It's a garter," said O'Mara. "The idea," exclaimed Mary and she

"Why not stop kissing?" is the question asked in a circular issued by this latest of health fad organizations. "It is a time-honored custom and one person cannot stop it. It is only in unity that sufficient strength can be gained to convince the civilized world that kissing is pernicious and unhealthful."

The rumor that a campaign was to be instituted in the public schools of Chicago to enroll pupils and teachers in the new organization was met with a denial by Superintendent Ella Flagg Young.

"I think more harm is done by calling children's attention to disease than can be offset by the new ideas advanced about kissing," she said. "As to the merits of the scheme to stop the practise of kissing, I cannot say. I am not a doctor. Anyway, I have heard nothing whatever about the plan to introduce the pledges in the schools."

Girls to Keep the Boys From Smoking

ANSAS CITY, MO.—"Cigarette A smoking is just cooking the brains of the majority of our high school boys," said Prof. E. D. Phillips, principal of the Manual Training high school. "I believe 75 per cent. of the smoke-either pipes or cigarettes. And it shows in their school work.

"The only remedy for this condition among the high school boys lies with the girls. Every normal young man fashionable. It is a sort of wrinkle wants to please the girls. If the just the same as creasing the trousers girls who now permit young men to till they will cut a lemon."

16 YEARS OF SKIN DISEASE

"For sixteen long years I have been suffering with a bad case of skin disease. While a child there broke out a red sore on the legs just in back of my knees. It waxed from bad to worse, and at last I saw I had a bad skin disease. I tried many widely known doctors in different cities but to no satisfactory result. The plague bothered me more in warm weather than in winter and being on my leg joints it made it impossible for me to walk, and I was forced to stay indoors in the warmest weather. My hopes of recovery were by this time spent. Sleepless nights and restless days made life an unbearable burden. At last I was advised to try the Cuticura remedies [Cuticura Soap, Ointment and Pills] and I did not need more than a trial to convince me that I was on the road of success this time. I bought two sets of the Cuticura Remedies and after these were gone I was a different man entirely. I am now the happlest man that there is at least one true care for skin diseases. Leonard A. Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves-in short establishes sound vigorous health

If your dealer offers something "just as good," It is probably better FOR HIM ... it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.
