Our base ball team was considerably strengthened this week and we may now expect the percentage to rise upward. On account of being long on fielders and very short on third basemen the management traded Grant to Kearney for a first class third baseman and let our man who was holding that sack go. The pitchers who are good stickers will play in the field and we may look for "something doing" from now on.

Children's Day was celebrated at the Baptist church Sunday morning to the great enjoyment of both grown folks and children. The program consisted of songs and recitations and was carried out entirely by the children of the Sunday school. Every number was excellent and there was no waiting or hesitating on the part of the performers. So well did each do his part many wished to hear it over again. This simply demonstrates what little folks can do and what is more what they can do willingly. It would be difficult to find as many grown folks in any Sunday school that would do as well.
