NEW ERA IN FINANCE

ACCURACY AND PUBLICITY
PROVES TO BE A POPULAR
MOTTO.

Prompt Response to Bold Move of
President Vail—"Accuracy" Reduc-
ed Western Union's Surplus \$13,
000,000—"Publicity" Restored Con-
fidence and Its Stock Went Up.

Are the great financiers of the
country beginning to see a new light?
Time was, until recently in fact, when
the men at the head of the big cor-
porations "kept their business to
themselves," as far as the law would
allow. Capable men at the head of the
big concerns, long realized the weak-
ness of their position, but what was
needed obviously, as in all great re-
forms, was an unmistakable occasion
and a courageous man. The occasion
arose in the purchase of the Western
Union Telegraph company by the
American Telephone and Telegraph
company, and the man appeared in
Theodore N. Vail, President of the
purchasing corporation.

It was last December when public
announcement was made that the
Gould holdings of Western Union had
been taken over by the Telephone
company.

On account of the high esteem in
which the management of the tele-
phone company is so generally held,
great things were predicted as a re-
sult of the absorption of Western
Union. By the press of the country
the "deal" was most favorably com-
mented on it being widely pointed
out that under the direction of such
men as Theodore N. Vail and his as-
sociates, the telegraph company was
bound soon to work itself into a po-
sition where it could offer the public
far more efficient service than it had
ever before been able to offer.

But a very few months had elapsed
when it became apparent to the new
management that a modern and up-
to-date appraisal of the company's
assets would make possible a far
greater degree of efficiency of opera-
tion. "Here," they said to them-
selves, "we've bought control of this
property and we know it immensely
valuable, but we don't know just
how valuable. These appraisals of
real estate and securities owned were
made a long time ago. If we have
a complete inventory made of every
thing we've got we can announce the
facts to the public, start a new set of
books, and begin our responsibility
to stockholders right there."

How Inventory Was Taken.
The most expert accountants and
appraisers to be had were put at the
task. Their labors lasted over eight
months. Their report and its pub-
lication by the company marks an e-
poch in finance.

It began by recommending an ad-
justment of the difference between
the appraised and book values by a
charge of \$5,595,089 against sur-
plus. Book values of securities held
were reduced to market values, bad
and doubtful accounts were "charg-
ed off," an allowance of \$2,000,000
was made for "depreciation," another
of \$500,000 for "reserve," and so on,
until the old surplus of \$18,867,000
came down to \$5,136,000.

It required courage, the publication
of this statement to stockholders, say-
ing in effect: "The property of
your company has been revalued:
the surplus isn't nineteen million,
as you have been led to be-
lieve, but five millions," but it was
the truth, and President Vail did not
flinch. "Accuracy and publicity," he
declared, was essential. "The stock-
holder has a right to know. The
shares of this company are scattered
from one end of the Union to the
other. This is more than a private
corporation. It is a great national
enterprise. The public is entitled to
the facts."

The report was ordered published
forthwith. Financiers of the old
school and speculators generally were
aghast. What would happen? Would
the bottom drop out of Western
Union when the shareholders realized
that their property was worth
\$13,000,000 less than they had sup-
posed? But the amazing thing
happened. The stock went up and
stayed up. The public had responded
to this remarkable display of
frankness and confidence; to the new
motto, "Accuracy and Publicity."

The full significance of the action
of the new board is stated concisely
by Harper's Weekly in these words:
"Is this policy of publicity and of
open-handed dealing with shareholders
and public the forerunner of a
similar movement on the part of other
big corporations? Certainly it is
to be hoped that it is. In the case
of these big companies, dependent
upon public patronage and doing busi-
ness under public franchise, can
there be any question of the right,
of the people to know?"

"That right is being recognized.
It is recognized now in this epochal
act on the part of the telephone and
telegraph interests. It is the dawn
of a new era in corporation finance."

Timeliness.

All measures of reformation are ef-
fective in exact proportion to their
timeliness; partial decay may be cut
away and cleansed; incipient error
corrected; but there is a point at
which corruption can no more be
stayed, nor wandering recalled. It
has been the manner of modern phil-
anthropy to remain passive until that
precise period, and to leave the sick
to perish, and the foolish to stray,
while it spent itself in frantic exer-
tions to raise the dead, and reform the
past.—Ruskin.

THE IMPORTANCE OF HEALTHY KIDNEYS.

Weak kidneys fail to remove poi-
sons from the blood, and they are the
cause of backache,
headaches, urinary
troubles and dizzy
spells. To insure good
health, keep the kid-
neys well. Doan's Kid-
ney Pills remove all
kidney ills.

Mrs. E. E. Dewey,
Neleigh, Neb., says:
"In 1909 I had a
dreadful attack of
dropsy, my face being
so puffed I could hardly see and my
feet and hands were terribly swollen.
Doan's Kidney Pills were advised and
I began taking them. It required only
short use to restore my kidneys to a
normal condition."

MIX THIS FOR RHEUMATISM

Easily Prepared and Inexpensive and
Really Does the Work, Says
Noted Authority.

Thousands of men and women who
have felt the sting and torture of that
dread disease, Rheumatism, which is
no respecter of age, persons, sex,
color or rank, will be interested to
know that it is one of the easiest af-
fections of the human body to con-
quer. Medical science has proven it
not a distinct disease in itself, but a
symptom caused by inactive kidneys.
Rheumatism is uric acid in the blood
and other waste products of the sys-
tem which should be filtered and
strained out in the form of urine. The
function of the kidneys is to sift these
poisons and acids out and keep the
blood clean and pure. The kidneys
however, are of sponge-like substance,
the holes or pores of which will some-
times, either from overwork, cold or
exposure become clogged, and falling
in their function of eliminating these
poisons from the blood, they remain
in the veins, decompose and settling
about the joints and muscles, cause
the untold suffering and pain of rheu-
matism and backache, often producing
complications of bladder and urinary
disease, and general weakness.

The following simple prescription is
said to relieve the worst cases of
rheumatism because of its direct ac-
tion upon the blood and kidneys, re-
lieving, too, the most severe forms of
bladder and urinary troubles: Fluid
Extract Dandelion, one-half ounce;
Compound Kargon, one ounce; Com-
pound Syrup Sarsaparilla, three
ounces. Mix by shaking well in a bot-
tle and take in teaspoonful doses after
each meal and at bedtime. The ingre-
dients can be had from any pre-
scription pharmacy, and are absolutely
harmless and safe to use at any time.

HAPPENINGS IN THE CITIES

Costly New York Living Apartments

ONLY
\$15,000
A YEAR
—I CALL
THAT
CHEAP

NEW YORK.—In the city of New
York, where millionaires seem to
thrive like mushrooms in a collar,
there is being constructed an apart-
ment house in which a suite of rooms
will rent for \$25,000 a year. Probably
this rental is the highest that has ever
been asked for an apartment, even
such as will be found in this house, a
series of 18 rooms and so many baths
that one would be able to use a differ-
ent one every day in the week and
two on Sunday without doubling on
his trail. It is the apotheosis of lux-
ury; the last word, so far as the hu-
man mind of today can imagine, in
scandalous magnificence. In other
words, the builders of this house have
set a new pace for splendor in the
way of living. A yearly rental of \$18,
000 is the highest that has ever before
been asked for unfurnished housekeep-
ing apartments in New York city.

The new apartment house will have
17 apartments—one on each of the 17
floors—and five duplex apartments in
addition. The eleventh and twelfth
floors will be devoted to apartments
which will occupy all the floor space,
and these will rent for \$25,000 a year.
The apartments which share a floor
with half of a duplex apartment will
rent for \$18,000.

The architects have arranged the
suites so that each of these big floors
shall have more and larger rooms than

This Murderer 36 Years in One Cell

BOSTON.—Bent and marked with
prison labor, Jesse H. Pomeroy,
serving a life sentence in Charlestown,
Mass., has written his own story of his
crime and his efforts to better his con-
ditions shut away from the freedom of
the world. He is now 59 years of age
and was convicted of a double murder
when he was only fourteen years of
age. All these years have been spent
in solitary confinement and the pris-
oner declares he has never felt a
touch of human sympathy or kindness
and no effort has ever been made to
better his condition. "I have no
friends," he writes. "I cannot get a
hearing from the governor. I have
been left to my own devices in my cell
all these years."

Pomeroy killed two children, a boy
and a girl, after treating them with
barbaric cruelty. He inveigled other
small children into isolated sections,
stripped them of their clothing, tied
them to trees or upon boards and then

Chicago's Clubs for Working Girls

CHICAGO.—In Chicago there are
what are called Eleanor clubs,
where girls of all sorts and conditions
find homes. Among them are office
clerks of all descriptions, telephone
operators, milliners, bookkeepers, de-
partment store and other clerks, music
and art students. These latter are
encouraged to live, a few at every
club, since it helps the clubs and the
club girls in general.

At these clubs the weekly board rate
pays for two meals, breakfast and din-
ner. If a girl wishes to take her
lunch with her she pays five cents for
three sandwiches and either fruit or
cake, for which downtown she would
pay about fifteen cents. There is the
laundry also, which saves money for
the girls. For its use, with tubs, hot
water, irons, starch and bluing, the

can be found in a private city dwelling
occupying the regulation city lot, and
the number of houses in New York
that occupy more than one lot even in
"Millionaires' Row" do not exceed a
score. The four principal rooms of
each apartment—the salon, dining
room, living room and gallery—cover
2,500 square feet, and they are so ar-
ranged that they can be turned into
practically one immense room for en-
tertaining. Each apartment will have
at least three or four real fireplaces
where real logs can be burned; an in-
cinerating plant for the disposal of
garbage; vacuum cleaning system ex-
tended to every room; the latest heat-
ing, ventilating and refrigerating sys-
tems, and both electric and gas ranges.

In the basement there will be, be-
sides the individual laundries for each
apartment, large washing and ironing
rooms equipped with laundry machin-
ery. There will be wine vaults, cold
storage rooms and two large storage
rooms for each apartment as well. Two
floors below the ground will be de-
voted to these and the power plant
which will heat and light the building.
In addition there will be machinery to
manufacture ice for use in the kitch-
ens of apartments.

Those who have studied the condi-
tions of Manhattan island, and who
have been most emphatic in predicting
the era of overcrowding, will take this
sumptuous tenement as a real sign, of
that ultimate time when they believe
only business houses and the homes of
the rich will be left in Manhattan.
Other students of the city life will see
in this effort a sign of that time often
predicted when all city dwellers will
live in co-operative apartments.

Women Sweep the Streets of Atlanta

ATLANTA, Ga.—Atlanta's society
leaders and club women put on
white aprons one day recently and
armed themselves with brooms to lead
a militant crusade against dirt in the
city's streets and back yards. They
raised a prodigious dust, and found
the experience no less interesting and
no more strenuous than their accus-
tomed bridge parties or dances. In-
cidentally, they accomplished a real
good, for they obtained the assistance
of five or six thousand housewives,
each of whom agreed in advance to
set apart the day for a general clean-
ing of their respective premises.
For this one day the municipal street

cleaning and sanitary department
turned over hundreds of men and its
teams and wagons to the officers of
the Federated Women's Clubs.

These women, with the assistance of
able lieutenants, chosen from among
the belles of the city, directed a 12-
hour campaign, which had for its ob-
ject the cleaning up of odd little cor-
ners and out-of-the-way streets which
had not always come in for their full
share of attention under the routine
dispensation of the forces.

Other officers and members of the
federated clubs, brooms in hand,
showed by their individual examples
how much could be accomplished by
individual effort, and when the sun
set it was upon a brighter, cleaner
city.

So effective was the onslaught that
in the first few hours more dirt and
trash was carted off to the city dump
piles than had ever been carried there
within 4
