FIGHTING THE WHITE PLAGUE

Number of State Institutions is Double During the Past Two Years.

Sixteen state sanatoria, 28 county hospitals and 21 municipal hospitals for tuberculosis have been erected and provided for since January 1, 1909, says a recent bulletin of the National Association for the Study and Prevention of Tuberculosis.

Within the last two years the number of state institutions for tuberculosis has doubled, and the number of county and municipal institutions has increased from about 30 to 80. The expenditures of public money for the treatment of tuberculosis also has more than doubled. Not less than \$3,000,000 of state money was appropriated for tuberculosis institutions in 1909, when 43 legislatures met, and over \$600,000 in 1910, when only 11 legislatures were in session. The appropriations of counties and cities for tuberculosis hospitals and sanatoria in the last two years will aggregate fully \$2,500,000, bringing the total of official appropriations for tuberculosis hospitals up to over \$6,000,000 in the past two years.

In spite, however, of this good showing, the National Association for the Study and Prevention of Tuberculosis states that not one-tenth of the public provision for tuberculosis that is needed has been made. More than 250,000 tuberculosis patients are constantly without proper institutional treatment.

The Modern Way. A couple of young men on the Market street viaduct the other evening offered a new version of an old saw. After they had passed a couple of auburn-haired damsels one of the young men took his stand at the curb and gazed up and down the bridge.

"What are you looking for?" inquired his companion.

Pointing to the red-headed girls, the young man answered: "I'm trying to see a white automobile."—Youngstown Telegram.

He Knew. A certain jurist was an enthusiastic golfer. Once he had occasion to interrogate, in a criminal suit, a boy witness from Bala.

"Now, my lad," he said, "are you acquainted with the nature and significance of an oath?"

The boy, raising his brows in surprise, answered:

"Of course I am, sir. Don't I caddy for you at the Country club?"—Success.

It Worked Well. "How is the new filing system? Success?" asked the agent of the merchant to whom he had sold a "system" a few days before.

"Great!" said the merchant.

"Good!" said the agent, rubbing his hands. "And how is business?"

"Business?" echoed the merchant. "Oh, we have stopped business to attend to the filing system."

Cause and Effect. "He's a poet of passion, isn't he?" "Yes; I've seen him fly into one when his verses were returned."

WONDERED WHY. Found the Answer Was "Coffee."

Many pale, sickly persons wonder for years why they have to suffer so, and eventually discover that the drug—caffeine—in coffee is the main cause of the trouble.

"I was always very fond of coffee and drank it every day. I never had much flesh and often wondered why I was always so pale, thin and weak."

"About five years ago my health completely broke down and I was confined to my bed. My stomach was in such condition that I could hardly take sufficient nourishment to sustain life."

"During this time I was drinking coffee, didn't think I could do without it."

"After awhile I came to the conclusion that coffee was hurting me, and decided to give it up and try Postum. I didn't like the taste of it at first, but when it was made right—billed until dark and rich—I soon became fond of it."

"In one week I began to feel better. I could eat more and sleep better. My sick headaches were less frequent, and within five months I looked and felt like a new being, headache spells entirely gone."

"My health continued to improve and today I am well and strong, weigh 148 pounds. I attribute my present health to the life-giving qualities of Postum."

CLAIMS TO BE SQUARE MAN

Big Man With Good-Natured Face Submits Reasons Why—Built That Way.

"I don't want to blow my own horn," said the big man with the good-natured face, "but I think I come under the head of square men."

"Did you find a lost purse and restore it to some millionaire?" was asked.

"A little better than that, I think. Ten days before the state election a man came to me and asked:

"John, how do you think things are going to go?"

"All my way," I replied.

"Will it be a landslide?"

"Sure."

"But I'm told that it will go the other way."

"Don't you believe it. I'm seeing the signs in the sky. Bet my way. Bet even you. Bet all you've got. You'll be a sure winner."

"And he took your advice, did he?"

"He did. Went right off and made a bet within an hour."

"And about the landslide?"

"It landslided the other way. Yes, my party got buried ten feet deep."

"But where did the square deal come in?"

"Oh, I saw him afar off on the street next day and ran to him and handed him 50 cents."

"But—but—"

"He'd bet that and lost. It was his all. I restored it to him. Square deal, and he is a happy man. No compliments, gentlemen. I am built that way!"

Without Malice. "What have you done?" exclaimed Mrs. Cumrox, as she flourished a letter at him.

"Has that anything to do with the correspondence I tried to help you with?"

"It has. It's an indignant protest. I told you to address that distinguished pianist as 'Herr Professor.'"

"And I did so."

"Yes. But you wrote it 'Hair Professor!'"

Would Avoid Him. Slopay—Here comes a man I don't care to meet. Let's cross over.

DeLong—Why don't you care to meet him?

Slopay—He has a mania for collecting bills.

Of Course She Must. "What time does the dance begin?"

"Nine o'clock."

"Then we must be there at 8:30."

"What for?"

"I must have at least an hour in the dressing room to rearrange my hair."
