G. C. Bailey
Electrical Contractor.
All kinds of Electric repairing.
Bell phone, Black 20.

DR. CHAS. E. CROSS
DENTIST
Moon Block, Red Cloud
In Riverton every Monday

GARFIELD
Thursday was butchering day on wind mill row.
Will Fisher and family called on his sister, Mrs. George Coon Sunday.
Lee Smith and wife are visiting his rather fat brother-in-law, Guy Barnes this week.
The Garfield folks are taking in the Farmers' Institute this week and are having a big time.
Eli Houchin sold his mules Saturday to Kirkpatrick & Smith in Red Cloud and delivered them Sunday.
Most of the young folks attended the opening of the Mantey skating rink on Saturday and reported a good time.
Frank Amack butchered one day last week. He got the old cow in the barn and then took a shot at her and it made the cow mad and Frank went through a hole in the barn that Clide

says that he could not get them if he had not been scared but he went thru by tearing buttons off from his coat and breaking his suspender. He then took another shot at her and then one of the neighbors finished her with an ax and Frank felt better when he saw her hide on the fence.

COWLES

Jud Bailey was on our streets Tuesday.
Oscar Boyce was in Cowles last Thursday on business.
Mr. and Mrs. Jud White visited in Red Cloud last Sunday.
Dave Kaley and Frank Cowden were on our streets last Friday.
The youngest child of Mr. and Mrs. Boyd Vance is very sick with pneumonia.

Lawrence Boren of Red Cloud was visiting relatives and friends in Cowles last week.

Eugene Martin who lives west of town went to Omaha Friday to make a short visit with his mother.

Quite a number of our young people are enjoying themselves these evenings skating on the ice west of the village.

The following people shipped stock to St. Joe this week: Bence of Blue Hill, Harry Waller, Elso Rose, Ed Hill and Fuller & Bennett.

Frank Campbell left for Honesdale, Pennsylvania last Friday on a visit to his old home where he has two sisters and one brother living.

There was a basket social at the school house Wednesday evening. The proceeds is to go toward purchasing an organ for the school house.

F. A. Good who has been attending the Lumbermen's Convention at Omaha came home last Tuesday. He must have made some noise down there as he got his cartoon put in the Omaha papers.

There was a good attendance at the Senate last Friday evening and a good program was rendered. The paper which was gotten up by Professor Gregory was especially entertaining and also instructive. This society is good recreation as well as instructive.

There was a general meeting of the Greenwood Telephone Co. in Cowles Wednesday to try and see if it would not be better to make a joint stock company. This company running under a Mutual Company has grown most too large for what it was intended and for doing an exchange business.

GUIDE ROCK.

Mrs. H. F. Wirt was taken very sick again Tuesday.

Mrs. John Ohmstedt has been under the doctor's care the past week.

Frank Shadley is reported as very low. He has been ill several weeks.

Mrs. Robert Garrison, who has been ill several months and has had several relapses, now seems much better.

Lloyd Cassell is laid up as the result of a hard fall at the skating rink Saturday night. His right arm was severely injured.

Mrs. Lillie Edminster of Superior came up to attend the funeral of her aunt, Mrs. John Dunbar. She stayed a few days with the relatives.

E. E. Burr arrived home Saturday evening from Illinois, where he went to attend the funeral of his uncle Jarris Burr, who died while visiting in California.

The Farmers' Institute was well attended and the program of lectures by Miss Maxwell, Mr. Kydd, and Prof. Bowers was highly appreciated. The old officers were re-elected: A. Guy President, F. W. Bailey Vice President, Miss Ella Van Woert Secretary-Treasurer, G. Ohmstedt, J. Ohmstedt, Chas. Amack, E. Peters, and J. D. Chrisman Directors. They will select a President and Secretary for the woman's department.

Mary Ann Dunbar, wife of John Dunbar, died at her home in Guide Rock Friday morning at 4:30 o'clock, 1911. She was born May 9, 1836, so was nearly seventy-five years of age. She was a Webster county pioneer, coming here in 1872. The funeral was held at the Methodist church at 2 p. m. Saturday. Rev. E. L. Barch preached a splendid sermon. She leaves six daughters and three sons. In their order they are: Dora (Mrs. E. Peters), Sylvanus Dunbar, Matilda (Mrs. H. F. Cooper), Amy (Mrs. Chris Columbia), Alice (Mrs. Floyd Crow), Jimma (Mrs. G. W. Crow), Jesse Dunbar, Orange Dunbar, Mabel (Mrs. P. W. Roland). Jesse and Orange live in California. All the others live here. Her husband survives her. There are also twenty-six grandchildren. Mrs. Dunbar will be missed by a very large circle of friends. All extend sympathy to the family.

For Constipation

A Medicine That Does Not Cost Anything Unless It Cures

The active medicinal ingredients of Rexall Orderlies, which are odorless, tasteless and colorless, is an entirely new discovery. Combined with other extremely valuable ingredients, it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit but instead they overcome the cause of habit acquired through the use of ordinary laxatives, cathartics and harsh physic, and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Two sizes, 25 cents and 50 cents. Sold only at our store—The Rexall Store. The H. E. Grier Drug Co.

Farmers Institute.
Grand Exhibits.
Large Attendance.
A SUCCESS IN EVERY DETAIL.

The Farmers' Institute opened its doors Tuesday and the first day's attendance was very large; in fact the hall was not of sufficient size to accommodate all that desired admission. The exhibits of corn, wheat, grain of all kinds, fruit and vegetables, was a collection as one could wish. Those who know say that the quality of the exhibit was much better than that shown at the county fair and that it would compare favorably with many county exhibits at the state fair. The exhibit made by the ladies is the best ever shown in this county. There were articles of every description, from canned fruit to beautiful bed spreads; in fact there seemed to be an ample amount of all the nice things which the ladies can make. We wish that we had the space to devote to giving this feature of the Institute in detail.

The educational exhibit is likewise most excellent. We did not dream that this could be made so appetizing and instructive. There is not a single feature connected with the Institute this year which is not extraordinarily good.

The first program was given Tuesday evening and began with a most excellent musical treat by the Red Cloud orchestra. Then followed a ladies' quartet which was most appreciated. The duet sung by L. A. Whitaker and H. E. Thomas was a happy hit and most enjoyable.

Rev. Bates of this city then gave a masterly address on the grasses of Nebraska. The speaker has given more than twenty years of intensive study, and he spoke with authority. He stated that there were more varieties of grasses in Nebraska than in any other state in the union, and that they were of the very best quality. He went into detail and named the best grasses and showed how useful they were to the cattle and horses and hogs. He also produced fine specimens of these grasses and showed how one might be distinguished from another. There was one suggestion made by the gentleman which the farmers in this locality would do well to heed, and that is in regard to the curing of hay. He stated that in order to obtain the highest nutritive value from hay it was necessary to cut the grass in the morning, rake it in the afternoon, and stack it the next day. This would be bright and the best.

The next subject on the program "My Experience with Chickens" was taken up by E. J. Overing Jr. He explained at the beginning that he could hardly be classed as an expert in the poultry business because he had never given any attention to fancy stock and that his experience was not longer than a period of a few months.

However he seemed to be able to get eggs when the weather registered below zero and after all that is what counts in the winter time. His "system" boiled down is simply the separation of hens into small flocks and feed them food that will make eggs. From records he showed better than a 70 per cent egg production during the months of December and January. He also has proven to his own satisfaction at least, that it is possible to change the natural laying period of the hen and make her produce eggs when the price was high. One lot of 8 months old pullets, seven in number, laid on an average thirty-two eggs per week for six weeks, 70 per cent, which is good enough for summer. Very little extra labor is required for the care of fowls in this manner, and the returns amply repay the investor.

The east half of the big tie barn has been set aside for the horse and poultry show which is being held in conjunction with the Farmers' Institute. We did not dream that there were so many magnificent animals in this part of the world as are on exhibition in this barn. There are at least one hundred horses and mules here that are in the pink of condition. Several large stallions are to be seen which would add credit to any horse show anywhere. Then there are several teams of naves that weigh thirty-four to thirty-eight hundred pounds, May colts weighing eight hundred pounds, and two and three year old mules that look as large as the average dray horse. There isn't a poor animal on exhibition.

Fully fifteen hundred people entered the barn and viewed the animals on Wednesday. Then there are hogs that are as fine specimens of their kind as can be found anywhere. Poland china, Duroc Jersey, and Berkshire, all in the very finest condition. The Berkshire hogs called forth many words of praise. Nearly every farmer would remark as he saw them, "Those are the biggest Berks I ever saw."

And there are chickens and ducks. This exhibit is not large, but the birds are beauties and it would be the joy of anyone's heart to own such poultry. Unless one would visit this Institute he would not believe it possible to find such a large variety and such splendid specimens as are to be found here.

One of the most pleasing features of the institute is that there is no charge. Everyone is free to go and come as he pleases, and consequently there are no sore spots and no grumbling. Nothing but wonder is expressed on every side. Webster county is surely outdoing herself this winter.

Real Estate Transfers.

Transfers reported by the Fort Abstract Co. for the week ending Wednesday, Jan. 25, 1911.
