District Court.

District court began Tuesday morning and lasted until Wednesday night. Adjourment was then taken until March 16.

The case of Platt & Frees vs. Scrivner & Moritz took up an entire day and was then continued until the March term for the taking of further testimony.

Among other cases taken up were as follows:

Occidental Building & Loan Association vs. James P. Hale et al., confirmation of sale in R. W. Koontz.

Henry B. Popejoy vs. Edwin E. Burr, motion for new trial overruled. Defendant given forty days to prepare bill of exceptions.

Esther Thornton vs. Birdie Columbia. Confirmation of sale of land to Sherman Shipman.

Mary L. Springer vs. Herman Springer. Divorce was granted to plaintiff and she was given the custody of the two minor children.

L. H. Blackledge vs. Lots 7, 8, 9, 10 and 11, block 31, original town of Red Cloud. Decree of foreclosure, quieting title in C. J. Platt.

Annie Belle Spanogle vs. Catharine E. Hurley. Judgment for plaintiff for partition as prayed for.

Jane Blanke vs. Frederick Blanke. Divorce was granted to Mrs. Blanke and \$500 alimony and \$15 per month for support of the children.

Edna M. Dike vs. William H. Dike. Divorce was given Mrs. Dike with \$2500 alimony and \$15 per month for the support of the children, together with their custody.

Representative Quackenbush's tax-ferrit bill has had hard sledding. It was first reported for indefinite postponement. Later there was a resurrection and it again saw the light of day, but there is a great deal of opposition to the measure. Should the bill become a law, however, there would be more cash listed for taxation in one year as a result of its provisions than in ten years under the system now in vogue.

JOHN ABELS OF MERCEDES, TEXAS, MADE A NET PROFIT OF \$337 PER ACRE OUT OF HIS CABBAGES.

He averaged 21,000 pounds an acre at an expense of \$15 an acre. Mercedes is a typical Texas Gulf Coast section. Three years ago it was a wilderness.

You can buy just as good land and make just as great profit. Everything grows best in the Texas Gulf Coast country.

A single acre of onions has been known to pay a profit of \$500. Tomatoes average over \$100. Sugar cane returns a minimum of \$100 per cutting.

Why don't you come down to the Texas Gulf Coast and make some of this good money? Nothing in the city offers you such profits.

It takes a fortune to make a start in the towns nowadays. And at that, the average man in a by-town business has his nose on the grindstone by the time he has paid for his food and rent and conveniences.

It won't cost you much to visit this country and judge for yourself. Every first and third Tuesday of each month you can purchase a round-trip Land-seeker's ticket to any point in the Gulf Coast country, from Kansas City, at \$25.00, via Frisco Lines.

The Excursion Tickets are good on all Frisco trains leaving Kansas City daily. Booklets and further information will be furnished upon request to J. C. Lovrien, Division Passenger Agent Frisco Lines, Junction Bldg., Kansas City, Mo., or A. Hilton, General Passenger Agent Frisco Lines, Frisco Bldg., St. Louis, Mo.

THE LEGISLATURE

LINCOLN, Nebr., Feb. 20, 1911.—The legislature is now on the last half of the session. Bills may be introduced for seven more days but after that there will be no further "first readings," and the time of the senate and house will be devoted entirely to passing on pending measures. Thus far there have been ten bills that have passed both houses and gone to the governor for his approval. Thirty-four senate files have been sent to the house but none have returned, the bills that have gone to the governor having originated in the house. The senate has indefinitely postponed seventeen of its own bills.

The senate committee on public lands and buildings made what will probably be its last junket the past week, the members having gone to Nebraska City and Peru to investigate the state institutions located at those places.
