Economy Of Good Roads.

The economic loss due to bad roads is beyond computation and the indifference of the general public toward any projected improvement of our highways is not easily understood. Each owner of property must be held accountable for the condition of the highways of this locality.
 Of our public works the condition of none reflects our business status more accurately than the condition of our highways. To make good roads so that products of the farm are easily and quickly brought to this market is to increase the value of every farm along those roads and is practically to increase the farmers' facilities and lessen their expenses, at the same time making this town a bigger and better market for farm produce.
 If every citizen could see in actual money the financial return on his investment in good roads he would contribute his share thereafter with alacrity. He has drained the swamps on his land and converted them into arable land. He has bought improved farm implements—he has, in fact, adopted all modern methods—in order to increase the productivity of his land. But the marketing of his farm products is still seriously hindered by defective highways. The actual returns on any investment in improving the roads to market are just as direct and even more prompt than are those from farm drainage and improved farming methods.
 In these days of automobilizing good roads open up a much wider range of vision for the rural inhabitants and the same conditions that enable our residents to visit other sections induce residents of other communities to visit this locality. This intercommunication results in a kind of advertising that inevitably increases the value of property by bringing in desirable purchasers. In fact, the results accruing from the building of good roads comprise an endless chain of benefits to the community that builds the roads.

Great Sunday Evening Service
 There will be an open air service in the court house park by the several churches on next Sunday evening at 7:30 o'clock. A good address, good music, and a cordial welcome to all.

Athena to Red Cloud.

For the past club year or since the new programs were printed a club meeting with Mrs. C. E. Cross at Red Cloud has been pleasantly anticipated and the Athenas were well represented on No. 16 Thursday morning.
 From the beginning the day was a continual round of pleasure. The most delightful of luncheons was served at noon. The hour spent at the table was an especially happy one, as such a feast is doubly enjoyed in charming company.
 At 3 in the afternoon the club was formally opened. Roll call was answered by quotations from Richard Watson Gildie. Mrs. Spence gave a sketch of the life of R. W. Gildie and Mesdames Ayr and Bernhard also gave readings from this author. A number of piano solos by Mrs. Hilsabeck were much enjoyed and Mrs. Cross sang two favorites of the club, viz: "O Winds That Blow From the South" and Eugene Field's lullaby, "Balow."
 At six o'clock, although it may seem remarkable, the ladies were able to enjoy a daintily served tea and in a surprisingly short time the conveyance arrived to take us to the train and with many merry partings the crowd turned their faces toward Franklin, all agreeing that it had been a day of days and as a hostess Mrs. Cross is unexcelled. Mrs. Blackledge and Mrs. Albright of Red Cloud and Mrs. Joel Fager of Cheyenne, Wyo., were guests of the club.—Saturday's Franklin News.
