Reasons Why the Great Majestic You Should Buy

- 1st. It has the reputation of being the best range that money can buy.
  - 2d. It not only has the reputation but IS the best range made, and we will prove this to you if you will let us.
  - 3d. It is constructed of malleable iron, material you can't beat, and of Charcoal iron, material that resists rust 300 per cent greater than steel, is riveted together air tight. No heat escapes or cold air enters the range, thus uses very little fuel to do perfect work.
  - 4th. The reservoir alone is worth the price of range over any other reservoir made. It boils 15 gallons of water; is heated like a tea kettle, with pocket against left hand lining, and is movable and sets on a frame, hence cannot wear out. When water gets too hot it can be moved away from the fire.
- Majestic Ranges use less fuel; heat more water—and heat it hotter; costs practically nothing for repairs; lasts three times as long; bakes better; easier to keep clean and gives better satisfaction than any other range on the market. If you know positively that the above statements are true, wouldn't you buy a Majestic at once? Come in demonstration week and we'll prove it to you.
