The Simple Life. Anna Maria Wilhelmina Pickering, in her "Memoirs," edited by her son, tells a Yorkshire incident which contains a great deal of human nature. Variety splices life; the plain is monotonous, until its extent entitles it to the name of prairie or desert, and it gains interest through vastness.

There was an old couple in the village whom I used often to go to see. One day, when I found them sitting, one on each side of the fire, the old man said to me:

"Well, I miss and me, we've been married right on 50 years, and we've never had one quarrel."

The old woman looked at me, with a twinkle in her eye, and said:

Learned From Nature. An enthusiastic friend was dilating to the woman landscape gardener on the obvious advantages she must derive from actually superintending the workmen who executed her designs. "Being right out with nature that way you must learn so many interesting things," said the friend.

"I do," said the gardener. "I can tell the different kinds of whisky, the different kinds of tobacco and the different kinds of profanity a rod away."

Not a Bit. "In getting married Mr. Sothorn and Miss Marlowe showed very little consideration for the public."

"Why so?" "There's no fun in watching a man and his wife play 'Romeo and Juliet.'"

When we look back now upon some of the things we used to worry about, we wonder what the lunacy commissions were doing all that time!

SOUND SLEEP Can Easily Be Secured.

"Up to 2 years ago," a woman writes, "I was in the habit of using both tea and coffee regularly."

"I found that my health was beginning to fail, strange nervous attacks would come suddenly upon me, making me tremble so excessively that I could not do my work while they lasted; my sleep left me and I passed long nights in restless discomfort. I was filled with a nervous dread as to the future. A friend suggested that possibly tea and coffee were to blame, and I decided to give them up, and in casting about for a hot table beverage, which I felt was an absolute necessity, I was led by good fortune to try Postum."

"For more than a year I have used it three times a day and expect, so much good has it done me, to continue its use during the rest of my life."

"Soon after beginning the use of Postum, I found, to my surprise, that, instead of tossing on a sleepless bed through the long, dreary night, I dropped into a sound, dreamless sleep the moment my head touched the pillow."

"Then I suddenly realized that all my nervousness had left me, and my appetite, which had fallen off before, had all at once been restored so that I ate my food with a keen relish."

"All the nervous dread has gone. I walk a mile and a half each way to my work every day and enjoy it. I find an interest in everything that goes on about me that makes life a pleasure. All this I owe to leaving off tea and coffee and the use of Postum, for I have taken no medicine." Name given by Postum Co., Battle Creek, Mich.

"There's a reason," and it is explained in the little book, "The Road to Wellville," in pgs.
