Farm Loans

There are several reasons for seeing J. H. Bailey for a farm loan and here they are.
He is sole agent for Trevett, Mattis & Baker.
This company is here every day in the year ready for business and not here this week and gone next. They loan on any farm having the value in it improved or unimproved. You don't wait from two to four months for your money but surely get it on the day called for. They give the best option in the market.

Use Common Sense In Home Building

By applying your own knowledge and the wisdom you have gained through observation and you can't go far wrong. Wood has always been the favored material used in these parts and there is plenty of evidence in the old time frame houses still standing in this town to convince any self-thinking man that it is yet the safest material for home building. It permits of alterations and changes even after a house has been standing for years, and by painting, its entire appearance can be changed to conform with surroundings. The lumber we handle these days is carefully manufactured from virgin timber, perfectly dried and of full thickness. By exercising due care in the selecting of grades we can save you money and insure you satisfaction.

We have a party with \$2000 cash who wants to buy a quarter with improvements priced between \$7500 and \$8000. Also another party who wants a quarter without improvements and he will pay the cash if suited what have you got to offer.

GARBER, HUTCHISON & SALADEN

The neighbors of Tim Topham gathered at his home last Thursday noon and celebrated the anniversary of his birth. In the evening the young folks of the neighborhood continued the celebration. There were plenty of games and amusements in fact something lively was going on all the time. At mid night a dainty four course dinner was served. Both events were a complete surprise to Tim but that only increased the enjoyment.

Congregational church services as follows: Sunday morning services at 11. Subject of sermon: "The Four Temples." Evening preaching service at 7:30. Subject of sermon: "The Christ whom we cannot avoid." Sunday school meets promptly at 10 a. m. There are classes for all young and old and all not connected with some other school are cordially invited to come. Mid-week meeting for prayer, conference and praise is held Wednesday evening at 7:30. You are invited to attend all of these services. John J. Bayne, pastor.

Indications of spring begin to show themselves. We have not seen a red-breasted robin not have we observed and dainty spring flowers but we have a surer sign than that. At one of the churches Sunday evening we espied a well known politician in the audience and upon expressing surprise at the unusual occurrence we were informed that the spring campaign would soon

be on and it was time to fix the fence. And just after the services we distinctly heard the piping voice of a small boy as he called out: Oh! See! Tee!

The coming of "Casey Jones" to the Opera House, Feb. 10th, will mark the theatrical event of the season, locally. The play has been received in the large circles of the country very enthusiastically, the cast is the original one and the plot has been voted very interesting wherever the play has been seen. Oscar Labadie is the author of "Casey Jones" and he has written an exceptionally clever up to date comedy with local interest. The best thing about the play is that the laughs come thick and fast and makes such a thing as losing interest out of the question. The Company carries clever specialty artists and vaudeville numbers add much to the enjoyment.

A new firm has been organized in this city known as the Red Cloud Milling Company composed of Aaron Hedge T. J. Diamond and Herbert Neuberger. This firm has purchased the very latest and very best ball bearing mill grinding machinery known to modern invention and will make the highest grade of flour possible. They will also install feed grinders and make a business of grinding all kinds of ground feed delivered free in the city. This firm is separate and distinct from the firm known as the Red Cloud Roller Mills and it expects to be ready for business the first day of March. The office and safe room will be located in the Bon Ton restaurant. We extend hearty congratulations to the new firm and wish them success.

The county clerk's office has been remodeled and refitted then out and presents a very pleasing appearance. The partition between the two rooms has been removed which adds considerable space to the room. The records were becoming so numerous that every available nook in the building was occupied and there was no further room for new material. Under the present arrangement there will be plenty of space for filing for several years. One feature of this change will be very gratifying to the tax payers and that is that the cost to the county is practically nothing owing to the fact that the money used was derived from fees which were paid in amounting to more than the salary of the clerk.

The Real Estate and Farm Loan Department in the Chief office has for sale a large list of Webster and Franklin county farms, the best and cheapest all-purpose farms to be found. This part of the Republican Valley country is the heart of the Corn and Alfalfa Belt, and is unequalled for easy, thrifty farming. The soil is fertile and produces beautiful crops of corn, wheat and alfalfa, and this is one of the best districts in which to raise grain, hay and hogs, and feed cattle. Among their list are a number of farms that will pay good interest on the investment; several that can be purchased on easy payments and special deals; and many that will pay their way and grow in value. The prices vary according to quality, location and improvement. This country has good schools, rural mails, telephones, good roads, convenient markets and shipping facilities, and every qualification necessary to profitable grain and stock farms, dairy farms and feeding stations. Land values, prices and terms that should interest any land-buyer or homeseeker. Also a number of desirable City Properties listed and several good local farm trades. Correspondence solicited.

Baptist Church Services

The evening of song, with Doane the composer, has been postponed from Feb. 4th to Feb. 11th. Sunday school at ten o'clock. The new plan for the year bids fair to be a great success, both to interest and an increase in attendance.

The subject for discussion for next Sabbath a. m., will be "A Call to Perseverance". In the evening "Rendering an Account".

If you are not a regular attendant of some other church the Baptist has an open door for you.

Come, non church goer ask yourself the question, Why don't I go to church? W. F. OLE, Pastor.

LAND

No. 17. A quarter section for sale at \$8.00 on easy payments. About 100 acres smooth, balance gently rolling, all good soil under till with clay subsoil and free from sand or rock. About 50 acres under cultivation, balance in pasture, all first quality corn and alfalfa land and is an excellent dairy farm. Located 4 miles from good town on main traveled road in district of all good lands and productive farms. Complete set of fair improvements, house, stable, granaries, etc. TERMS—\$1,500 cash down, all the balance at 6 per cent until paid. \$500 can be had on 3 years time with options to suit purchaser. This farm would readily rent for \$350 in cash or more for term of years, and is priced \$1,000 cheaper than any of its neighboring farms on the market with less improvements. Any good farmer with cash for first payment, could with little extra effort, make the rent take care of the interest until paid out, and soon own a good farm which will grow in value from the day of purchase. A real snap.

No. 19. A fine well improved farm at \$10,500. An exceptionally well improved farm, located close to two good towns on good roads. About 130 acres under cultivation, 10 in alfalfa and 30 in pasture. About 60 or 70 acres smooth, balance gently rolling, none rough, all readily tillable. All good fertile soil underlaid with clay subsoil and free from sand or rock. Complete set of new improvements, all in good repair. Large house 7 good rooms and 1 closets; large barn 30x10 1/2 double stalls, 100 bushel granary and 30 ton mow. Double granary 30x10, 10 ft driveway with plank floor and 10 ft eaves, all shingle roofed, capacity 10,000 bushels. Machine shed 24x20 with shingle roof and repair shop attached. Wood shed 12x20 shingle roof, housetop, cow shed 10x18 with stanchions and section of floor cemented. These improvements are all less than 3 years old except the house and would cost but little to repair into first class condition. Young orchard of apples, plums, cherries, etc., nicely laid out. Fine well drained feed lot very conveniently located, can be made any size desired, and all drains by natural slope into the garden and orchard, a most desirable arrangement. This farm is situated in territory of good land and district of productive farms. It is all good alfalfa land, and as it is located in an excellent corn producing belt, with its fine feed yard and granary capacity, it is absolutely one of the best grain farms and feeding stations on the market in this country. Plenty of pasture lands not far distant and no neighboring competition in the corn market. 3 miles from one good town and 5 miles from another. The improvements on this farm cannot be rebuilt for less than \$4,000, and surrounding land of no better quality and less than one fifth of the improvements and farther from town, is on the market at \$9,000 and 10,000 a quarter. Special terms to purchaser. Worth your time to investigate. CHIEF OFFICE.
