 Mr. and Mrs. George Dellrunner are the proud parents of a baby girl born last Friday night.
 Mr. and Mrs. Ray Cochran and son Mauric, and C. L. Herrick and family visited Sunday at Millard Hunsicker's.

Set An Example.

Albert Prince, the negro convict who was only murdered Deputy Warden E. D. Davis, should receive short shift. Here is an opportunity to show that courts are instituted to deal out justice, not to delay. Let Prince have all the law entitles him to and no more—a speedy trial. Let us have none of the maudlin and mawkish sentiment too often lavished upon bloody-handed murderers. Let us have none of the pattering pleas for delay; none of the technicalities invoked to stave off punishment. He committed a cold-blooded murder. Not more than a month or six weeks should elapse between the date of the crime and the date of its punishment.—Will Maupin's weekly.

Careless About Appendicitis in Red Cloud

Many Red Cloud people have stomach or bowel trouble which is likely to turn into appendicitis. If you have constipation, sour stomach, or gas on the stomach, try simple buckthorn bark, glycerine, etc., as compounded in Adler-i-ka, the new German appendicitis remedy. C. L. Cotting, the Druggist states that A SINGLE DOSE of this simple remedy relieves bowel or stomach trouble almost INSTANTLY.

To Pay Cash To Our Boys

Money Premiums for Those Who Excel in Raising Acre Corn.

A recent special dispatch to the World-Herald from Lincoln has the following to say:
 The Nebraska state board of agriculture offers to the Nebraska boy under 18 years of age growing the largest yield of corn from one acre of Nebraska land during the year 1912, \$25; second \$20, third \$15, fourth \$10, fifth to eighth \$5 each, ninth to twelfth \$3 each, and thirteenth to sixteenth \$2 each; and to the boy growing the largest yield on an acre of land west of the east line of Boyd, Holt, Wheeler, Greeley, Howard, Hall, Adams and Webster counties \$25; second \$15, third and fourth \$5 each, fifth and sixth \$4 each, seventh to tenth \$3 each, and twelfth to sixteenth \$2 each.
 A local weekly paper has duplicated the above awards, and an entry in one is good for an entry to both offerings. The conditions of the contest are as follows: The entire labor of preparing the ground, planting cultivating and harvesting of this acre of corn is to be performed by the contestants who enter contest by recording his name in the office of W. R. Mellor, secretary, Lincoln, not later than May 30, 1912.

Said acre to be measured, husked and weighed in the presence of two disinterested freeholders, residents of said county in which the acre of corn is located. Said committee to forward affidavit as to weight and requirement of specifications in this contest to the secretary of the state board of agriculture not later than Dec. 1, 1912. The contestant shall file with the secretary a full and detailed account of his method of doing the work, fertilizers used, if any, whether bottom, hill or table land, and the character or kind of soil on which the crop was grown, with an accurate account of the cost of production, rent of ground, cost of plowing, harrowing, discing, planting, cultivation, husking and every feature of expense in labor, seed, fertilizer, etc., based on the actual time that entered into the production of this acre of corn.
 If so requested prize winners must forward a sample of ten ears of corn grown to Mr. Mellor.
 Practically all corn in the state is raised in altitudes varying from 1000 to 2400 feet above sea level, therefore the division made through the state is as nearly as possible along the 1700-foot altitude line. In the contests carried on for several years past only two premiums have gone west of this line.

This will give ambitious Webster county boys a chance to show what they can do along this line and many of them will no doubt go into this contest with a determination to get first money. We would caution all who may go into this contest to spare no labor in preparing the soil for the crop and to use only the best seed corn they can procure.

How Cold affects the Kidneys

Avoid taking cold if your kidneys are sensitive. Cold congests the kidneys, throws too much work upon them, and weakens their action. Serious kidney trouble and even Bright's disease may result. Strengthen your kidneys, get rid of the pain and soreness, build them up by the timely use of Foley Kidney Pills. Tonic in action, quick in results. Sold at Dr. Cook's drug store.

Friendly Confidences.

"What did my ma say to you when you came in?" inquired Johnny of his friend who had come to tea. "She said she was very pleased to see me." "I'm glad," said Johnny in a relieved tone. "Cos she said this morning she hoped you wouldn't come."—Stray Stories.

The Seed Corn Special Train

The Train Will Arrive Here Next Thursday Morning.

The seed corn instruction special train by the Burlington railroad in cooperation with the University of Nebraska, will arrive in Red Cloud on Thursday, February 29, at 8:30 a. m., and will remain here three-quarters of an hour before proceeding on its journey east.
 University instructors will deliver short lectures at each stopping place and no one should fail to be at the Burlington depot when the special train arrives.
 We earnestly urge all those interested in agriculture to meet the corn special next Thursday morning at 8:30 o'clock.

For Sale.

Why Do You Rent a Farm

when you can homestead Government irrigated farms in the Big Horn Basin, Wyoming, and Yellowstone Valley, Montana, on the ten payment plan, without interest?

Why not decide right now to become the owner of a good farm? Sit down and write me what kind of a farm you want. I will write you full particulars about what the Big Horn Basin has to offer in that line. It may be worth thousands of dollars to you and it will cost you very little.
