Clarence Mitchell who many remember is making a great record with Providence in the International League. Besides doing great work as a pitcher he has been playing in the outfield and on second base and has been hitting the ball at a great clip. Recently he finished a game for another pitcher and in the ninth inning hit the ball for 3 bases and brought the winning runs in. Also in another game he collected a home run with the bases full. The many admirers of Mitchell are all pleased to see him making such a record.

Clarence Mitchell is Married

The many friends of Clarence Mitchell here will be surprised to hear of him getting married. On December 27, 1911 at Bloomington Miss Lulu Wilson and Mr. Clarence Mitchell both of Franklin were married by County Judge Kelso. The wedding had been kept a secret and none of Mr. and Mrs. Mitchell's many friends knew of it.

Mrs. Mitchell left Franklin Wednesday morning for Boston where she will join "Mitch" and they will go on to Providence where he is playing ball.

Mrs. Mitchell has been one of Franklin's most popular and successful school teachers for the past few years. Mr. Mitchell is the son of Mrs. S. N. Braden living northeast of Franklin and since boyhood has been a base ball enthusiast. He won his first honors here in the Nebraska State League and was sold to the Detroit Tigers in the American league. He was transferred at the beginning of this base ball season to Providence, Rhode Island, in the International league owned by the same men that own the Detroit team and is making good as a "south-paw" pitcher with that team. The Chief along with Mr. and Mrs. Mitchell's many friends join in wishing them much joy and happiness.

TWO NEW STARS FOR FLAG

Old Glory to Blossom Out With a Total of Forty-eight

WASHINGTON, July 4.—Two stars were added to the national flag today, denoting the addition of Arizona and New Mexico to the sisterhood of states. It has been some time since the two territories became states, but under the law the change in the flag could not be made until today, which is the independence day next following their admission to statehood. The law governing the subject is contained in the act of congress approved April 4, 1818. That act provides as follows:

"On the admission of a new state into the union, one star shall be added to the union of the flag and such addition shall take effect on the fourth day of July then next succeeding such admission."

This is the first time since 1890 that more than one star has been added at a time. In that year stars were added for the five new states of Idaho, Washington, Montana and North and South Dakota.

Since July 4, 1896, the official arrangement of the stars in the field of the flag has been such as to permit the addition of more stars without destroying the symmetry of the approved design. In none of the acts of congress relating to the flag has the manner of arranging the stars been prescribed. Before the date named there was a lack of uniformity in the matter. After July 4, 1896, when Utah was admitted to the union, the forty-five stars in the flag were arranged in six rows, the first, third and fifth rows having eight stars each, and the second, fourth and sixth rows, seven stars each.

Four years ago a rearrangement of the stars was made by a joint board of army and navy officers to meet the case of Oklahoma. Under the arrangement, which has prevailed until today, there were eight stars in the first, third, fourth and sixth rows and seven stars in the second and fifth rows. The rearrangement to meet the case of Arizona and New Mexico was a very simple matter. All that was necessary was the addition of a star each to the second and fifth rows, which makes six rows of eight stars each. Since the admission of any of the territorial possessions to statehood is a matter of the distant future the present arrangement of the stars in the national flag is likely to remain unchanged for a long time to come.

Former Hastings Man Comes Back

J. D. Crans, of Red Cloud, purchased the Anderson confectionery store and took possession yesterday afternoon.

Mr. Crans lived in Hastings for 16 years prior to 1899, when he moved to Red Cloud where he conducted a hotel. While here he was identified with the grain and the implement business and also had sub-contracts in the erection of the municipal water works.

He will probably purchase a residence in this city and bring his family here in the near future.—Wednesday's Hastings Tribune.
