**Great Change in Homestead Law
More Liberal Than Ever Before**

Just think of it! Only 21 months actual residence required during three years, instead of 60 months as before. Write today and let me tell you about the—

<p>Government Irrigated Farms in the Big Horn Basin Twelve years time to pay for water right, without interest. Only small payments first five years. Included in New Law</p>	<p>Modell 320-Acre Free Homesteads in Wyoming. A good chance for farm hands, farm renters, and others, to obtain valuable dairy and stock farms. 5 Months Absence Each Year</p>
---	---

What This New Law Means!

This new law is the result of the joint wisdom of the best poled land men of the west. You can be away from your homestead 5 months each year earning money to improve your farm. The 7 months time of residence can be employed to get in shape for keeping stock, and a Patent thus early secured gives you credit to buy enough stock to start with.

Send for new folder telling all about the soil, crops grown, conveniences to timber, coal and other advantages for home building. When writing let me know which lands interest you most.
