Two strangers were discussing the bill boards in this city one day this week in our hearing. Accustomed as we are to seeing these bill boards, they never struck us as being unslightly. They certainly do not appeal to strangers

Col. Matthews of the Riverton Review is an avowed candidate for the office of United States marshal. Bro. Matthews is well qualified for that responsible position and we heartily wish him success.

The suggestions made by the poultry committee should be carefully studied by all those who expect to exhibit chickens at the institute next year. Knowing what to select, what to reject and what the standard is will go a long way toward bringing down the prizes. These suggestions of the committee ought to prove helpful to all breeders. The first thing to do is to find out what is wanted and then make selections accordingly.

To make reputation, take a ton of gall, half a pound of brains, sixteen grains of truth, and fill up with abilitum lying. To make a friend, take half a pound of sympathy, a pound of flattery, two pounds of beneficial services; mix well and serve hot. To make an enemy, take an ounce of truth, put it on ice for a minute, and let them have it cold. To make love, take a pound of taffy, a hundred weight of sentiment, and 200 pounds of deception, artfully applied.

At a conference of evangelists held recently in the Moody Institute the following practices were condemned: "Boosting 'free will' offerings." "Posing for pictures." "Lying about the number of conversions made." "Breaking chairs on the pulpit to get effect." "Acting a part in a melodramatic story."

A state wide campaign for the suppression of selling tobacco to minors has been organized and trouble is in store for violators of the tobacco law. Four dealers were arrested in Hastings last Thursday and detectives will visit every city and town in the state just as fast as they can get around. The promoters of the organization are determined to spare no effort to have this law strictly observed in Nebraska.

Are we going to be a race of stoop-shouldered men? One would naturally think so to look over almost any large crowd, walk down any crowded street, or glance at the average male human being he meets. The man who walk with his head erect, his shoulders thrown back and his chest extended just as nature intended he should, is a rarity and is remarked about wherever he goes. The average man, and the average young man, walks as if he were very tired.

The Chamber of Commerce has been organized with enthusiasm, vim and vigor. The real work is yet before that body. The members of this organization must see to it that the enthusiasm does not die out. To be a real efficient force in this community there must be a continuous effort to build up our resources. We heartily endorse this movement and we are confident that it will be a genuine success. However we must not think that the officers can do it all efficient as they are. Every person in and out of the club should lend a helping hand and everyone boost for the common interests.

When the big public school parade marched down the streets last Wednesday the comment most generally heard was "It is no wonder that the schools are cramped for room when you see all those children." This parade was an eye opener to most of the residents of this district. There were six hundred and twenty magnificent specimens of American childhood in that long procession and they are worthy of any sacrifice the district might make. We were proud of those well behaved, alert, intelligent looking pupils. From the kindergarten to the graduating class one could see that every grade had a purpose in view, a desire for advancement. All honor to the boys and girls in our public schools.

**Special Homeseekers' Excursions
NOVEMBER 19th AND DECEMBER 3rd
TO POWELL, WYOMING.**

Join me on one of these excursions and let me show you these rich farm lands irrigated by the Government where you do not have to pay a profit to anyone—simply return to Uncle Sam during the next twelve years, the actual cost of irrigation without interest, **ALFALFA!** Here you can see about 12,000 acres of alfalfa now in stack. It is a wonderful showing and tells you better than I can what you can do on your homestead. **HOMESTEADS CLOSE TO TOWN.** You need not go more than three or four miles from Powell to get as good farms as any now growing bumper crops. Write today for illustrated folder with map showing how conveniently these gifts of the Government are located.
