No. 7

Oaks and Melons

It takes a hundred years to grow an oak—three months will grow a melon. You can grow four hundred melon crops while one oak is growing and the oak will remain long after the melons are gone—The Stickney Engine has the stability of the oak.

- A Gift With A Thought In It**
- There's one very simple way out of the Christmas shopping problem; don't shop, but sit quietly at home and subscribe for The Youth's Companion. The chances are, too, that no present you could buy for the young friend or the family you delight to honor could confer so much pleasure as this gift of The Youth's Companion for a whole round year—fifty-two weeks' issues, and the fifty-second as keenly anticipated and enjoyed as the very first.
- There will be stories for readers of every age; sound advice as to athletics; suggestions for the girl at college or making her own way in the world; good things for every member of the family—all for \$2.00—less than four cents a week.
- The one to whom you give the subscription will receive free all the remaining issues of 1912, as well as The Companion Window Transparency and Calendar for 1913, in rich, translucent colors. It is to be hung in the window or over the lampshade. You, too, as giver of the present will receive a copy of it.
- THE YOUTH'S COMPANION**

THE ALARM is a dreadful thing OF FIRE for the man without insurance. Every time he sees the engine racing along his heart comes up in his throat if the fire is anywhere near his place. What folly, what mistaken economy.

THE COST OF INSURANCE is so small that it need hardly be considered. The freedom from worry alone is worth it many times over. Have us insure you to-day.
