A Three Section Train Loads Over 100 Carloads of Stock

"We still have some live stock to market, judging from the run we brought down this morning," is the way F. P. Fisher of Guide Rock, Neb., expressed himself after landing on the second section of a train of stock of 54 cars.

"Those three sections were loaded with cattle, hogs and sheep, and there is still left some more to come. Of course we find that the bulk of the fed cattle have been marketed, but so far as the hog supply is concerned, that is very uncertain, as they keep coming all the time."—Monday's Kansas City Daily Drovers Telegram.

FIRE
THE ALARM OF FIRE is a dreadful thing for the man without insurance. Every time he sees the engines racing along his heart comes up in his throat if the fire is anywhere near his place. What folly, what mistaken economy.

THE COST OF INSURANCE is so small that it need hardly be considered. The freedom from worry alone is worth it many times over. Have us insure you to-day.

Go Ahead of the Railroad

Public announcement has been made of the early completion of the Burlington's new main line through the BIG HORN BASIN that will give a direct outlet for the splendid farm products growing in that new country.

Government Irrigated Homesteads

Here you can file upon an 80 acre Government homestead at actual cost for the water right, no profit to anyone, no taxes the first three years, and have twelve years without interest in which to repay the Government for the actual cost of the water right. The fact that the Government has made the payments very light the first five years, giving an opportunity to improve your farm and get it under cultivation before having to meet further payments, is important to the man desiring to establish himself upon a farm home.

Location Near Railroad Towns

You can locate now within from three to four miles of Powell, nearby 40 farmers who are already making a success.

If you do not get a home there it is your fault. Write quickly for maps and full particulars.
