

Get off the hose

Why not apply the same idea to your body — get rid of the obstruction which is stopping the flow of life-giving mental force from your brain to the various parts of the body. You'd quickly kick if Johnnie planted both feet on your hose and stopped the flow — and you'd waste no time poulticing the nozzle, either! *Off the hose for Johnnie!*

When the bones in your spine get out of line they pinch the nerves which lead from the brain to the various parts of your body—then the nerves go out of business, or partially at least. Of course the parts then lead to suffer. Wouldn't your lawn burn up in the dry heat of summer if Johnnie camped on the hose. Same principle exactly for the nerves carry the life force from the mind.

Here is the Chiropractor's opportunity to help get rid of the obstruction. He knows how, with the hands alone, to set the bones of the spine in proper position again and let the life-giving force flow. He knows why, too, he's got to know how and why to get a diploma.

And you can rest assured he'll be glad to answer your questions. He has made Chiropractic his life-work, preaching and teaching the common sense of this new science of human betterment. Ask him.

Nebraskans Flock to Canada

Emigration Question is Serious
That 4,463 people were induced to forsake Nebraska and Eastern Iowa in 1912, and east their lot with the Canadian Agricultural Countries, is the proud boast of the immigration officials of these Canadian countries.

Such statements are being published promiscuously in Canadian papers and are being used to induce other Nebraskans to emigrate to Canada.

"The property and money represented by these people is \$5,105,485 and 1913 promises to surpass even the records of 1912, which are represented by the figures here given." This is the prognostication of Canadian reports.

That emigration from Nebraska is greater than immigration is the statement of men well versed in Nebraska affairs. That something must be done to check this emigration, is the consensus of opinion. But opinion has not yet taken definite form.

However, House Roll 423, which provides for the creation of the Nebraska Conservation and Welfare Commission and provides further for the teaching of "Nebraska to Nebraskans" was drawn for the purpose of making Nebraskans more contented with their lot. The Commission is empowered to make or cause to be made surveys of the state which will establish the fact that Nebraska is even a better agricultural country than those Canadian countries, which are not profiting from the judicious use of publicity.

In the face of the above facts regarding emigration from Nebraska, it is high time that something was done to meet the condition. Nebraskans may wait until it is too late. Now is the time and House Roll 423 is the most immediate solution of the question. Every Nebraskan who has the interest of his state at heart, should urge the passage of House Roll 423.

Good Nebraska Steers Coming

E. J. Peterson of Inavie, Neb., a prosperous stock farmer and cattle feeder of the Republican river valley, had in today four carloads of well finished steers that brought a good price. They averaged 1,347 pounds, and sold for \$8.60.—Monday's Kansas City Daily Drivers Telegram.

THE ALARM OF FIRE is a dreadful thing for the man without insurance. Every time he sees the engines racing along his heart comes up in his throat if the fire is anywhere near his place. What folly, what mistaken economy.

THE COST OF INSURANCE is so small that it need hardly be considered. The freedom from worry alone is worth it many times over. Have us insure you to-day.
