RED CLOUD - NEBRASKA

TO KEEP IN TOUCH

PRESIDENT WILSON HAS TELEPHONE INSTALLED IN ROOM.

COLONEL CODY GRAVELY ILL

"Buffalo Bill" Suffering From Nervous Exhaustion—Anti-Saloon League Will Call For Referendum on Two Mile Limit.

Washington.—Installation of a telephone in the president's room at the capitol has stirred senators to a keener appreciation than they had hitherto possessed that they might expect President Wilson in their midst at any moment of the day. On the president's last visit to the capitol he got a key to his room so that he might come and go whenever he pleased without notice. Senators on the lobby investigating committee are of the opinion that Senator Townsend's sensational charge that President Wilson himself virtually had been lobbying for the tariff bill, will not be taken up by the committee as an issue unless some specific charges are made.

Will Invoke the Referendum.

Lincoln.—Petitions will soon be sent out in the state by the Anti-Saloon league of Nebraska, under the direction of Supt. H. F. Carson, calling for a referendum on the amendment proposed by the league to limit saloons in the state from within two miles of a state institution. This was decided upon at a meeting of the Anti-Saloon league held in this city Friday. Twenty-six thousand signers approximately must be secured to the petitions in order to secure a referendum on the question, distributed in at least two-fifths of the counties of the state. There will be no delay in sending the petitions out and it is believed that by July 1, all of them will have been taken out by field workers for the Anti-Saloon league.

COLONEL CODY GRAVELY ILL.

Nebraska Plainman Stricken at Knoxville, Tenn.

Denver.—In response to a telegram summoning her to the bedside of her husband, Mrs. William F. Cody left Sunday night for Knoxville, Tenn., where Colonel Cody, better known as Buffalo Bill, is seriously ill from nervous exhaustion. Mrs. Cody accompanied her husband to Denver several months ago when Mr. Cody came here as a result of his interest in the plans being made for the Indian pageant to be held in 1915. She remained in this city when Colonel Cody left to join his show. He was with his company when taken ill, and is now confined to the home of a cousin in Knoxville.

Will Be in One District.

Lincoln, Neb.—Cadet Taylor, surveyor of customs at Omaha, has been in Lincoln conducting a preliminary examination in preparation for the revision of the list of customs ports of entry July 1. According to the revision, Nebraska and Wyoming will be made into one district, at the head of which will be Mr. Taylor at the Omaha office. Lincoln will be retained as a port of entry and another port will probably be established in Wyoming.

Panama, Republic of Panama.

Bellario Porras, president of Panama, has signed a decree prohibiting in the future the naturalization of Chinese in Panama. The census taken in 1911 showed 2,313 Chinese on the isthmus, 463 of whom were native born or naturalized. About fifty became naturalized within the last two years.

Celebrate Signing of Treaty.

London.—King George entertained the peace delegates of the Balkans and Turkey at the palace to celebrate the signing of the treaty of peace. Other guests included the duke of Connaught, Premier Asquith, foreign Secretary Sir Edward Grey and Viscount Morley of Blackburn, lord president of the council. While peace is being celebrated in London the situation in the near east is still threatening.

Want Suit Reopened.

New York.—Sixteen hundred independent tobacco dealers in New York and New Jersey have urged Attorney General McReynolds to reopen the dissolution suit against the American Tobacco company, according to an announcement by Henry H. Hunter, their counsel.

Chicago.—Aviation claimed another victim when James Colovan, a young amateur flyer, was killed by the overturning of his biplane when it struck a tree here Saturday.

To Teach Chinese to Fly.

San Francisco.—Tom Gunn, Chinese aviator, who sailed for Shanghai Thursday, announced before his departure that he was to establish a military aviation school for the new republic. He took with him a biplane, a flying boat and a military tractor.

Washington, D. C.—Secretary Bryan has accepted an invitation to address the international meeting of the Christian Endeavor union at Los Angeles, Cal., at some date between July 1 and 9.

DOINGS AT WASHINGTON

ACTS OF THE NATIONAL LAWMAKERS.

Events of Importance as They Transpire in Both Branches of Congress.

Friday.

The Senate.—Lobby investigating committee continued hearings. West Virginia mine strike investigating committee begins hearings at Charleston Tuesday at 2 p. m. Senator Jones conducted a filibuster to get action on his resolution for two clerks for each senator. Granted lobby committee until June 28 to make its investigation and report.

The House.—Met at noon and adjourned at 12:40 p. m. until noon Tuesday.

Banking and currency committee appointed a sub-committee to consider open hearings on currency legislation. Chairman Palmer of democratic caucus announced an investigation of patronage in the house.

Representative Hinebaugh, in a speech urging adoption of his resolution, attacked financial management of the St. Louis & San Francisco railroad.

Representative Broussard introduced bill for continuance of commerce court and extension of its powers.

Representative Graham introduced bill to authorize three battleships and appropriating \$15,000,000 immediately for that purpose.

Thursday.

The Senate.—Lobby investigating committee continued hearing.

Commerce committee voted to favorably report a bill to delay customs service reorganization until January 1, 1914.

Mrs. Laura Kellogg, before Indian affairs committee, condemned Indian education system and Indian bureau.

Finance committee continued consideration of tariff bill.

President Wilson submitted for confirmation several nominations.

Senator Hitchcock introduced an amendment to the tariff bill to levy additional tax on the production of the larger tobacco factories to prevent monopoly.

Senator Kenyon introduced a resolution instructing interstate commerce commission to investigate acquisition of Chicago & Eastern Illinois railroad by the St. Louis & San Francisco and subsequent receivership.

In executive session decided to postpone renewal of limited arbitration treaties with Great Britain, Italy and Spain.

West Virginia coal mine strike investigating committee continued its plans for hearings at Charleston.

The House.—Not in session; meets at noon Friday.

Budget committee began consideration of plans to reform methods of framing appropriation bills.

Public lands committee heard San Francisco delegation on Hetchey valley water project.

Americans Desert City of Mexico.

Mexico City.—More than 150 Americans who have no money to pay their way to the United States have been sent from here to Galveston by way of Vera Cruz as the result of representations by the ambassador to the administration at Washington. The steamer La Mexicana was chartered for this purpose, Red Cross funds being used. Most of the Americans reside in Mexico City.

California Has Tornado.

Redding, Cal.—An intense but purely local tornado, said to be the first storm of the kind ever reported in California, snapped off a mile and a half of telegraph poles three miles south of here Thursday night, uprooted fruit trees and unroofed many lightly built barns and sheds. The usual funnel-shaped cloud by which tornadoes are made visible was seen, but in this case it was cream-colored instead of black. A heavy downpour of rain succeeded the wind.

Refugees at Galveston.

Galveston, Tex.—Among 1,008 refugees who have arrived in Galveston on board the steamship Harry Morse from Tampico, Mex., was W. I. Voight, who was seriously injured while defending his wife and sister against marauders near Tampico. Although no one was allowed to board the Harry Morse pending quarantine inspection, it was learned that hundreds of persons were flocking into Tampico in the hope of being able to return in safety to the United States.

Head of Mail Service.

Washington.—Alexander H. Stephens has been appointed by Postmaster General Burleson general superintendent of the railway mail service, vice Theodore Ingalls.

State Sunday School Association.

Lincoln.—The Nebraska State Sunday School association will hold its forty-sixth convention in Lincoln June 17, 18 and 19. At least 2,000 delegates are expected. About 150,000 officers, teachers and pupils are under the wing of the association. The sessions will be held in St. Paul's Methodist church. A large chorus, led by Professor L. L. Henry of Chicago, will include singers from all of the churches and Sunday schools of Lincoln. One of the leading speakers on the program is Dr. Charles T. Paul.

BOARD OF ENGINEERS ON VALUATION.

This is the board of engineers on valuation recently selected by the interstate commerce commission to assist in formulating the plans under which the valuation work on the property of common carriers will be done. From left to right: Prof. Wm. D. Ponce of the University of Wisconsin, Howard M. Jones of Nashville, Tenn., J. S. Worley, Edwin F. Wendt of Pittsburgh, Pa., and R. A. Thompson of California.

SENDING ARMS INTO ULSTER NIGHT RIDERS GET ACTIVE

ARBITRATION HAS LOST STAND-ING IN SENATE.

Sensation at Dublin by Seizure of Consignment of 500 Rifles—Americans Ask to be Protected.

Washington.—The principles of compulsory arbitration written into the code that has bound the United States with twenty-four great and lesser nations of the world for the last five years is in serious danger, and unless there is a decided change in sentiment in the senate, the renewal of twenty-three of the treaties which gave a concrete evidence of this nation's belief in such a policy may be impossible. In executive session the senate again failed to ratify renewals of the arbitration agreements with Great Britain, Italy and Spain, which recently expired.

SENDING ARMS TO ULSTER.

Sensation Caused at Dublin by Seizure of a Consignment of 500 Rifles.

Dublin, Ireland.—A sensation was caused by the seizure Friday by the customs authorities of a consignment of 500 rifles and bayonets on board a steamer from Liverpool. The arms were addressed to Baron Farnham, who is thirty-three years old, is the eleventh baron of the line, and formerly was an officer in the regular army. He served through the war in South Africa. He is also one of the leading unionists of Ulster and has taken a prominent part in the campaign against home rule. The cases of rifles and bayonets came from a London firm and it is reported that the authorities have discovered an elaborate organization in London for supplying unionist centers in Ulster with arms.

Americans Demand Protection.

Tampico, Mex.—Three hundred Americans located in southern Tamaulipas, representing sixty-eight families, have demanded in a long message to President Wilson, sent through Consul Miller here, to know once for all "whether they can expect protection from their home government," since they "do not desire to take measures for our own safety which would embarrass our government without giving due notice beforehand."

Says System is Failure.

Washington.—Mrs. Laura Kellogg, a student of the American Indian, told the senate Indian affairs committee that only when the bureau was abolished and the Indian allowed to fight out his own problem of existence would the red man return to the proud place he once occupied. She suggested the establishment of model villages to be conducted by the Indians themselves. Mrs. Kellogg condemned the Indian education system and said that it had been proved a failure.

Long Hike for Boy Scouts.

New York.—A tramp from New York to San Francisco by a company of twenty-five American boy scouts is being arranged by Captain Galaraldo, the national director of the organization. The start is expected to be made about June 15, and along the way recruits will be enlisted among any boys wishing to join in the long hike. A military automobile with necessary equipment for camping will accompany the scouts. There will also be a physician along to look after the health of the boys.

Poet Laureate of England Dead.

London.—Alfred Austin, British poet laureate since 1896, died here Tuesday at the age of seventy-seven. Alfred Austin, besides being a poet, was a barrister, a critic, a novelist, a war correspondent and a political writer.

Urge Teaching of Sex Hygiene.

Washington.—Laws requiring production of health certificates by applicants for marriage licenses, and the teaching of sex hygiene was urged at a conference here of prominent society women and sociological workers.

ANCIENT VARIETIES

CURATOR SECURES SEEDS OF ANCIENT INDIAN PLANTS.

GOSSIP FROM STATE CAPITAL

Items of Interest Gathered from Reliable Sources and Presented in Condensed Form to Our Readers.

The seeds of several Nebraska plants, which were grown on this soil before America was discovered, have been given to Melvin R. Gilmore, curator of the State Historical society museum, by Amos J. Walker, of the Omaha tribe, who perpetuates the plants of his tribe by planting a little crop each year from the seeds handed down by his ancestors. There are three varieties of corn in existence out of fifteen varieties formerly grown by the Indians of Nebraska. These species are the blue, white and blue and white speckled flint corn, used as food. These corn crops have been raised every year by members of the Walker family of the Omahas for at least 700 years. One variety of squash out of four grown by the Indians has been saved by his family and samples of the seed and the dried plant given to Mr. Gilmore. Two species of Indian beans have been saved throughout the vicissitudes and changes undergone by this Indian family, and eight lost. In return for a favor done by Mr. Gilmore for Amos Walker, these gifts from the treasured seeds cherished by his family were made while Mr. Gilmore was on a visit at Walthill, where Mr. Walker lives with his daughter.

State Treasurer's Report.

The monthly report of State Treasurer George shows a total of \$706,374.29 in the state treasury at the close of the month of May. There is \$26,836.01 in the general fund and \$143,268.93 in the permanent school fund and the other trust funds, making a total of \$170,104.94 available for the purchase of state warrants. This is enough to call in some outstanding general fund warrants, but as there is a total of \$600,000 of general fund warrants outstanding, drawing 4 per cent interest, and the funds are coming in slowly, there is little prospect that the state will soon get rid of this floating debt of \$600,000.

Asks Indulgence of War Department.

Indulgence of the federal war department with regard to the showings made by Nebraska guardsmen at the annual spring inspections is asked by Lieutenant Colonel W. E. Ayer in a report forwarded to Washington. The reason therefor is given in the fact that several companies of the guard were called into the field for service at Omaha following the Easter day tornado and many inspections were postponed and were later held at times when the companies could not take as high ranking as would have been the case otherwise.

Best Display Ever Undertaken.

The board of managers of the state horticultural society held a meeting at which plans for the exhibit at the coming state fair were talked over. The most pretentious display of fruits and flowers ever undertaken by the Nebraska horticulturalists is to be made. It will be housed in the spacious new hall which is to be erected on the grounds during the summer. The managerial board comprises Clyde Barnard, Table Rock; L. Henderson, Omaha; J. A. Yager, Fremont; W. H. Harrison, York; J. R. Duncan, Peru, and Peter Youngers, Geneva.

End of Growsome Relic.

The old Nebraska pen gallows, reminder of several hangings, is to be torn down following the enactment of a law by the late legislative session abolishing hanging. The work has been started in order to make room for prison improvements. The gallows was on the market for a time and negotiations were begun with New Mexico looking to sale to that state. The price could not be agreed upon, however, and the deal fell through. In 1900 the gallows was brought here from Douglas county, where it did service several years. William Rhea of Dodge county was the first man executed on it. Albert Prince of Douglas was the last. Seven men in all paid the death penalty on this growsome old instrument.

Adjutant General Hall has gone to Berlin, where he will supervise the gathering up of state military tents and other property loaned temporarily to the sufferers of the tornado on March 23, which wiped out that village.

Dr. E. J. C. Sward of Lincoln is being considered by members of the advisory board of control as possible head of the Norfolk hospital for the insane. Dr. Sward was secretary of the state board of health under former Governor Mickey.

Penitentiary Wants Pay for Light.

Warden W. T. Fenton has presented to Secretary of State Wait and Land Commissioner Beckmann a claim against the state for \$1,917.53 for electric light furnished by the penitentiary power plant to the state capitol, capitol grounds, governor's mansion, orthopedic hospital and the old home for the friendless. The claim is regularly presented by every warden in the penitentiary, but no direct appropriation is made to cover the expense of manufacturing the electric energy in question.

Reason Why. She was a dear, old fashioned, modest simple, maiden lady. So that when she announced the fact that she thought of paying a chiropodist a visit her great friend was duly astonished. "I didn't know you suffered from corns," remarked the latter, when the news was first broken to her. "I don't," replied the old lady mildly, albeit firmly; "neither am I afflicted with bunions, chilblains, nor any other pains in the feet." Her friend gazed at her with growing consternation. "Then, my dear," she remonstrated gently, "what on earth do you want to visit a chiropodist for?" The little old lady's cheeks blushed a delicate pink as she leaned forward, laid one mitted hand on her interrogator's arm and whispered: "It's this way, my dear. I do so want to be able to boast that at least once in my life I had a man at my feet!"

Just a Bit Mixed.

London is laughing over a story which has recently come out concerning Lloyd George. It appears that shortly after the death of King Edward an Englishman traveling in Wales got into talk with an elderly Welshman and happened to be the first to tell him of the king's demise. "And who might be king now?" asked the Welshman. "Why, George is king now." "George!" he exclaimed in surprise. "Well, how he has got on, to be sure—and me to remember him as a little lawyer in Criccieth!"

Poison Oak or Ivy Poisoning

is quickly relieved by bathing the affected parts in a solution of two teaspoonfuls of Tyree's Antiseptic Powder to a pint of water. 25c. at all druggists or sample sent free by J. S. Tyree, Washington, D. C.—Adv.

EXPERIENCE OF MOTHERHOOD

Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother's results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consultant) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

The Army of Constipation

Is Growing Smaller Every Day.

CARTER'S LITTLE LIVER PILLS are responsible—they not only give relief—they permanently cure Constipation. Millions use them for Biliousness, Indigestion, Sick Headache, Sallow Skin.

SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine must bear Signature

Asen Wood

DAISY FLY KILLER

placed anywhere, attracts and kills all flies, mosquitos, etc. Made of natural, non-toxic, cheap. Lasts all season. Made of metal, cast in one piece; will not rust or injure anything. Guaranteed effective. All dealers or direct express paid for 5c. HAROLD BOMERS, 120 DeKalb Ave., Brooklyn, N. Y.

W. N. U., LINCOLN, NO. 24-1913.
