

GOOD YEAR

See the Good Year Casings and Tubes before you buy. We handle all sizes and carry a large stock. You want to remember that the Good Year people made a reduction on the 1st of April of 10 per cent on all of their castings and tubes. It is not very often that a Good Year casing or tube goes wrong, but when you do you will find their adjustment very satisfactory. We also carry a good stock of Presto Tanks for exchange and can show you the famous Presto Inflator, which can inflate your tires for you with less work and very little expense.

Get Polesine oil to lubricate your cylinders and Panhard oil for your transmission and your car will run smoothly and with less wear. The best oil is none too good for a car.

We invite you to come and see us, when in the village.

Glacier National Park Newly Revealed Wonderland

This region of majestic, glacier-capped mountains—the climax of the rugged grandeur of the Rockies—is reached by the Great Northern Railway from Glacier Park Station, at which point the Railway Company has constructed a hundred thousand dollar hotel. An automobile road has been built from this station to the interior of the Park. A detour of from one to four days can be made at the very moderate cost of from \$10 to \$25, including, hotels, automobiles, launches and coaches, covering distances of from forty to one hundred and fifty miles.

As all hotel and transportation arrangements in the Park are under the supervision of the Great Northern Railway Company, the comfort and enjoyment of tourists is assured. In making a tour of the Pacific Coast, a detour into Glacier Park will prove to be one of its most interesting features.

A RESOLUTION

At the last meeting of the board of directors of The Midwest Life a resolution was unanimously adopted congratulating the people of the state of Nebraska upon the passage of the new insurance code. The Midwest Life was the only Nebraska life insurance company which favored the passage of this measure. In fact every other company vigorously opposed the adoption of this code on various grounds, some even going to the length that they could not continue in business if it were passed. Such objections, only emphasized how far the companies making them had fallen behind in their method and forms of policies issued.

The policies The Midwest Life are now issuing, it will continue to issue without material change. It had anticipated the requirements of the new code. Better buy one of the policies.

Warner's Rust-Proof Corsets

Are recognized throughout the world for their leadership in corset fashion. They are the product of designers who have the resources and knowledge necessary to produce corsets ideally suited to the woman who is particular about her figure, her health, comfort and appearance. Thin double boning gives easy flexibility to the garment. Double interlinings prevent the boning from punching through and tearing the cloth, and the fabrics themselves are light and soft, but so strongly woven that they will not stretch or shrink. A Warner's Corset once fitted to your figure will always keep its shape. Call and see the new front lace design. To be well dressed you must have one of these designs.
