Only about 40 per cent of the volume of water claimed by the Kearney Water & Electric Power company as the amount which is entitled to take from the Platte river has been allowed by the state board of irrigation. THE BEST TREATMENT FOR ITCHING SCALPS, DANDRUFF AND FALLING HAIR

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura Ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura Ointment on the scalp skin rather than on the hair. It is well to place a light covering over the hair to protect the pillow from possible stain.

Perfectly Safe.

"Better lap up that spilt milk," said the first cat. "If the missus sees the mess you'll catch fits." "Not me," said the second feline. "The woman I live with blames everything on her husband."—Louisville Courier-Journal.
