Tom Sutton, more familiarly known as "Dynamite Tom" was in the height of his glory on Thursday and Friday of last week, all because of the fact that these days had been set apart as good road making days, and Tom had been designated by the committee in charge to do the real blasting stunt, where ever necessary, in order to secure dirt for leveling the roads.

A. C. Hosmer, J. A. McArthur, Dr. Mitchell and the editor of this great exponent of truth, on Sunday went over the roads which had been repaired on Thursday and Friday, a full account of which appears in another column of this paper. While we had realized a great deal of enthusiasm had been aroused, and was given to understand considerable good had also been accomplished, yet we were indeed surprised at the amount of actual work which had been done. It was a good move, and no small amount of glory is due to the committee appointed by the Chamber of Commerce and those citizens who taken an active part. Webster county roads are now in A-No. 1 shape, and these two days of good road making has clearly shown how much good could be accomplished after proper enthusiasm is once aroused.

Geo. Trine, the popular dealer in butter, eggs, produce, etc., has not only showed he was a firm believer in the good roads movement, by getting out and taking an active part in the real work, but on last Thursday demonstrated beyond a doubt that the road leading south was in fine shape for travel. It happened this way—Geo. had spent the day working on the road about four and one half miles south of town, and when the evening shades began to fall, and the roll was called by Dr. Mitchell, Geo. was found to be absent. The Dr. thought the situation over, remembered where Geo. had gone, and realized he had no way by which to return to town except walk. Hence the Dr. cranked up his auto and proceeded to go out after him at a gait which would make all speed laws look sick, but had only covered a few miles before meeting Geo. We have so far been unable to learn the exact time made by this aforementioned popular produce dealer, but have heard sufficient to know that he made an enviable record and thoroughly demonstrated they were more ways than one of working on the road.
