PRESIDENT GRATIFIED AT ATTITUDE OF BIG BUSINESS.

Many Banks Apply for Admission Under New System—Riot in Streets of San Francisco.

Gulfport, Miss.—President Wilson has expressed his gratification that business interests of the country are adjusting themselves to changes brought by the recent legislation and to the spirit of the times generally. In an informal speech to a committee from the Mississippi legislature, the president said this phase of public affairs was uppermost in his mind. He adverted to the tariff and currency reforms as having been accomplished by congress simply "sawing wood" and going ahead with an outlined program. The thing that pleases him most, however, he said, was the way the business interests of the country seemed to be acting.

Riot on San Francisco Street.

San Francisco.—In a street fight between citizens, policemen and a division of the unemployed here, five persons, including a patrolman, were hurt. W. A. Thorn, one of the leaders of the men without work and five others of the crowd were arrested and charged with inciting a riot. The trouble started when a young teamster attempted to drive through a parade of the unemployed. He was attacked, pulled from his seat and severely bruised before rescued by the police. Three details of reserves were called and fought the rioters before order was restored.

A notice to this effect and signed by Captain C. E. Adams, president of the bank, was posted and the bank was not opened for business. A meeting of the directors of the bank was called at once. The closing of the bank caused a wave of excitement here, as nothing was indicated previously that business would not be continued.

Ban Lifted on the Tango.

Lincoln, Neb.—The ban on all "rag" dances, which has been in effect at the University of Nebraska, has been lifted by Miss Mary Graham, dean of women. The annual military ball, the first formal dance of the year, held Friday, was the cause of the change in the edict. The tango, the castle-walk, the one-step and other novelty dances were permitted, under the condition "that they were danced right." Herefore nothing but the waltz, two-step and five-step have been permitted.

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs"

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness. Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

At Church in Holland.

In many parts of Holland men still wear their hats in church. Moreover, smoking in church is not considered irreverent by the Dutch when service is not in progress, and, it is said, even the ministers sometimes indulge in this practice.

Altogether, Dutch Protestantism is, it would seem, from a certain standpoint, a comfortable form of religion. One may keep his hat on in church, which saves him many a chill; he may talk freely and in his natural voice, not in a whisper; he has a neat housemaid in a white cap and apron to show him to his pew or to offer him a chair, and he has nice drab pews of painted deal all around him and a cheerful "two-decker" pulpit above.

Indians First "Cubists" (?)

"Lone Star," art instructor in the United States Indian service, claims the "cubist" art originated with the American Indian some 200 years ago. Among his collection of Indian art, says American Art News, specimens in the common figure of the eagle, shaped square and totally unlike an eagle, yet immediately impressing the observer that it is one, which, declares "Lone Star," is the height of the "Cubist" art.

Adventures of a Guide. "What did that hunter shoot while he was up here?" "Me and a deer; both by accident."

That Was Her Business. "How did that manure ever manage to marry that old millionaire?" "She just nailed him, I guess."
