The Story of Every Child

Is A Story Of Growth and Change
 A change too gradual and subtle for even the watchful eye of a mother to detect, or for memory to recall.
 Only in pictures can the story be told and a record of the childish features and expressions kept for all time.
 A good photograph now and then will mean everything to you, and to them, in after years.

Substitution Has Played Havoc

with many a family's most cherished, long planned home because they followed the advice of some one-idea builder who thought perhaps to improve upon Nature's own tried and tested material—lumber. The time, to guard against disappointment is at the start. Look around and investigate the frame houses that have been standing for as many as thirty years and compare them with those constructed of other materials. Time alone is the real test of home building materials, because you don't build a home every ten years, and few people can afford to experiment with fads or theories. After making your comparisons come in and see the nice, bright lumber we have in stock and let us tell you in actual figures what a good frame house will cost you today. Real facts are deadly to substitution.

THE ALARM is a dreadful thing for the man without insurance. Every time he sees the engines racing along his heart comes up in his throat if the fire is anywhere near his place. What folly, what mistaken economy.

THE COST OF INSURANCE is so small that it need hardly be considered. The freedom from worry alone is worth it many times over. Have us insure you to-day.

A Trip Through The Big Horn Basin

Will be the next land folder issued by the Burlington and will be ready for distribution about February 25th.

VALUABLE INFORMATION: This new folder will contain much valuable information—not exaggerated statements about what a few good farmers have produced, but information about what a large number of farmers have accomplished under ordinary conditions.

THE NEW RAILROAD just now being completed, to the south, connecting the Big Horn Basin with Denver, Omaha, and other eastern markets will make this folder especially interesting. Write for it today. It is free and contains a large map of the Big Horn Basin.
