

# ROYAL BAKING POWDER

Is the Housewife's Greatest Help.

WHAT so tempting to the laggard appetite as a light, flaky, fruit short cake or a delicate hot biscuit?

Royal makes the perfect short cake, biscuit and muffin, and improves the flavor and healthfulness of all risen flour-foods.

It renders the biscuit, hot-bread and short cake more digestible and nutritious, at the same time making them more attractive and appetizing.

Royal Baking Powder is indispensable for the preparation all the year round of perfect foods.

## A Trip Through The Big Horn Basin

Will be the next land folder issued by the Burlington and will be ready for distribution about February 25th.

VALUABLE INFORMATION: This new folder will contain much valuable information—not exaggerated statements about what a few good farmers have produced, but information about what a large number of farmers have accomplished under ordinary conditions.

THE NEW RAILROAD just now being completed, to the south, connecting the Big Horn Basin with Denver, Omaha, and other eastern markets will make this folder especially interesting. Write for it today. It is free and contains a large map of the Big Horn Basin.

The concert will be followed by a 40 minute playette. Tickets 25c to all and will be on sale at Cook's drug store.

A surprise birthday party was given Miss Iva Patten Saturday afternoon, the occasion being her sixteenth birthday, by twenty of her young lady friends.

Everybody present report having had a good time and wished her many more happy birthdays.

Alf. McCall, administrator of the Amos Gest estate, informed us Friday that the administrator's public sale held Thursday was attended by a large crowd and that Col. Jake Ellinger was at his best and received top notch prices for everything.

Cows brought from \$72 to \$91.50 per head and hogs sold at 85 cents per pound. The two automobiles sold for \$955 and \$630 each. Mr. McCall was well pleased and is convinced that it pays to advertise public sales in the newspapers.

The following men would make good timber for the mayorship of Red Cloud: Dr. Damerell, J. L. Christian, Wilbur Hamilton, Frank Cowden, F. J. Munday and Alf McCall. If any one of these men were nominated and elected he would make a good mayor and carry out the wishes of the people in a business like way.

According to the reports published by the three banks in this city at the close of business February 12th the combined deposits amounted to \$488,048.47. This is an excellent showing.

We have passed the experimental stage safely and may now be considered on a good substantial footing. This speaks well for the prosperity of this community and the industry of our citizens.

This city is large enough to afford a night watchman at the fire hall. Some one ought to be employed to stay there at night. Should we be so unfortunate as to have a big fire much property might be saved if everything were in readiness at the fire hall for the firemen to use. A little delay at the start might prove to be very disastrous. This could all be obviated by having a regular watchman.

George Volland, who at one time worked in this city as an undertaker for Albright Bros., and married Miss Paquita Studebaker, but who now resides in Hastings, was struck by a runaway horse, while crossing the street in that city last Thursday, and received painful injuries. No bones were broken, however, and while considerably skinned up, he is reported at this writing to be rapidly recovering.

By far the worst storm of the winter struck this locality last Sunday and Monday. Trains were delayed, roads blocked, telephone and telegraph lines were put out of commission and great havoc was played generally. Fortunately the storm was of short duration and the extreme cold soon played itself out. Cattle feeders generally were well prepared for the storm so that there was not much loss except to roads and wires. We have been very fortunate this winter in escaping many of the storms that have passed around us but this one was of such a general character that we came in for our share. The storm was general from the Rocky mountains to the Missouri river.

Harry Roats is home from Omaha. Col. Jake Ellinger was in Cowles Friday.

The silo is no longer an experiment in Nebraska. It has been fully tried out and has proven to be a big money saver. It is estimated that from thirty five to sixty-five per cent of the crop is saved by the use of the silo. Worth talking about.

As this is the last week of the Union Gospel Services, a special invitation is given to everybody to attend. Union meetings Thursday, Friday and Sunday night. These services have proved very helpful and everybody is invited to attend these closing ones.

Attorney Blackledge of Red Cloud is in the city today in consultation with the State Savings bank directors. The case of the possession of the \$10,000 of securities is still in contention, and the other state banks of the state are interested in helping the bank here fight for the possession of these notes.—Saturday's Superior's Express.

We notice by the Superior Express that the new State Bank of Superior has succeeded to the business of the defunct First National. Mr. L. J. Dunn of Lincoln is president and Mr. W. T. Auld is vice president of the new institution. This organization will make a strong and substantial bank and we congratulate our sister city on her success.
