If a man wants to get acquainted with human nature, let him edit a newspaper for a short time. He knows nothing of the ups and downs of life until he has served in this capacity. He may have preached, conducted a bank, sold goods, traded horses, practiced law, sawed wood or operated a pop corn factory, but he needs a few months' experience as an editor-in-chief of a country newspaper to complete his knowledge of the eccentricities of human nature.—LebanonTimes
