Public Sale Mammoth Jacks and Big Stallions
 CO UMBUS, NEBRASKA, JUNE 4th

THIS nation has been forced to take a step in connection with Mexico which it cannot retrace. As there is no responsible head to the Mexican nation it makes the situation so difficult that it would be impossible to withdraw until the whole of Mexico has been subdued. This will undoubtedly require from ten to thirty years. Our Government with its army invading a foreign country will be obliged to purchase thousands of mules for military equipment. Good mules were never so scarce and never have commanded such high prices as at the present time, and if there are not more mules grown by our people our government will be obliged to go to foreign countries for a portion of its equipment. We should not make this necessary. Let us raise more mules. I am offering jack families. These jacks are bred to produce the most desirable mules that can be grown. I also have a nice line of finely finished, long-necked, high headed, half Spanish jacks, bred by jacks imported from Spain. These jacks are making the best cross for heavy draft mares that can be had. Come and buy a jack. Mule raising will be the most profitable industry that a farmer or stock man can follow for the next 10 or 20 years. I will sell a carload of these jacks and a carload of big stallions at Columbus, Neb. on June 4th. All who anticipate attending this sale kindly write me for sale catalogues at once. Please come a day before the sale so as to look the stock all over and get thoroughly acquainted with it. Will also be making daily sales at my farm.

Glacier National Park
Newly Revealed Wonderland

This region of majestic, glacier-capped mountains—the climax of the rugged grandeur of the Rockies—is reached by the Great Northern Railway from Glacier Park Station, at which point the Railway Company has constructed a hundred-thousand dollar hotel. Automobile roads have been built from this entrance and from Belton (Western entrance) through the Park. A driver may be made from either entrance, or going in at one and coming out at the other. In making a tour of the Coast such a detour will prove to be one of its most attractive features. It includes automobiles, launches, coaches, hotels, and covers distances of from 80 to 150 miles.
