Suffrage Act Constitutional.

Springfield, Ill. - The Illinois woman's suffrage act has been declared constitutional by the state supreme court in deciding the Scown suit. The woman's suffrage act, the validity of which was upheld by the decision, granted limited suffrage to all women citizens of Illinois, permitting them to vote for statutory offices and upon propositions presented the Illinois electorate. State and other officers named in the Illinois constitution were excepted from the act which, however, left the women free to vote for municipal officers and for township officials.

SENATE MAY STICK IT OUT.

Not Disposed to Adjourn in July as

Suggested. Washington.-A proposal that congress shall adjourn in July, as soon as the appropriation bills are disposed of in both houses, was talked over by democratic leaders, but without result. Majority Leader Underwood conferred with democratic senators and with some of his colleagues in the house and pointed out that the best thing to do would be to clear up the supply measures, of which only the sundry civil and general deficiency bills remained, and then to adjourn, with the understanding that the president convoke an extra session of congress in November. The senators are not disposed to agree to this course. They are particularly disinclined in view of the president's insistence that congress should carry out the anti-trust program before adjournment of this session.

Rome. - The threatened railway strike throughout Italy has been abandoned and order is being gradually restored, even in the towns where a virtual revolutionary movement was in progress. The most serious situation exists in the province of Ravenna, where villages and small towns are being ruled by the local republican committees, which have armed the inhabitants, thus giving the ignorant masses the impression that any kind of violence will be permitted, and churches and clubs have been sacked and Carranza is expected later.

DELEGATES AGREE ON PART OF PEACE PROGRAM.

LOOKING FOR MEXICAN MOSES

Naming of New President a Big Task for Mediators-Carranza Decides to Send a Representative.

Western Newspaper Union News Service Niagara Falls, Ont .- A search for a man to take the place of Huerta as provisional president of Mexico occupied the mediators, following the signing of the first series of protocols. The first peace document provides for the transfer of power from Huerta substantially as follows:

A government is to be constituted in Mexico of a character to be later provided which shall be recognized in Mexico City on (date to be fixed), and which from that day forward shall exercise public functions until there shall be inaugurated a constitutional precedent.

The language of the protocol purposely uses the phrase "which shall be recognized in Mexico City," without specifying by whom, so that in another protocol recognition will be promised by the United States as well as the mediating countries, Argentine, Brazil and Chile.

Think Huerta Will Soon Be Out. Washington.-That the new provisional president of Mexico, who is to be aided by the South American-United States combination to bring order out of chaos, will be selected almost immediately is believed certain here. The substantial progress already made at Niagara Falls has encouraged the belief that by the middle of the week Huerta will be out and the task of restoring order begun. The administration is absolutely confident Carranza will agree to the tentative plan backed by this government and that fighting will end as soon as Huerta has

Niagara Falls, Ona.—The crux of the Mexican problem—the selection of a man for provisional president acceptable to all factions in Mexico and foreign governments generally - was reached in a conference between the mediators and the American and Mexican delegates. For more than an hour names of various individuals were discussed, but on none was there a semblance of agreement. Delegates are now devoting themselves to the greater task of finding the man of the hour, he who can reconcile the warvote by the blepnial convention of the | ring factions and maintain peace while general federation of women's clubs. a constitutional election is held and normal order is resumed.

Incidentally Carranza's note, transmitted by Rafael Zuzaran, his representative in Washington, arrived, advising the mediators that constitutional delegates were on their way to the mediation conferences with full instructions.

Will Send Representative.

Saltillo, Mex. - General Carranza has announced that he returned an answer to the note of the Niagara Falls mediators stating that he would appoint representatives to the conference at Niagara Falls. The names of the representatives were not made public. The note simply gave assurances that the constitutionalists would be represented and did not mention conditions on which they would take part. It was announced, however, that agreement to attend the conference would not serve to check the campaign against the federals, and the advance to the south will be continued with

Washington.-Every indication in Washington points to participation by the constitutionalists of Mexico in the mediation conference at Niagara Falls. While final word was awaited by his agents here from General Carranza as to the answer to be forwarded to the South American mediators to their proposals, delay was accounted for by telegraphic disturbances between the United States border and Saltillo.

The order to ship the artillery came from Mexico City some time ago, but lack of means delayed the movement of the guns.

Carranza's Attitude Not Disclosed.

Mexico City.-What is the exact nature of General Carranza's attitude toward the recent communication from the mediators has not yet been disclosed. It was learned that partial reply to the mediators' proposals had been received from the constitutionalist chief by his confidential agent, Rafael Zubaran, but that not all the information desired had been received.
