

THE RED CLOUD CHIEF
Red Cloud, Nebraska.

PUBLISHED EVERY THURSDAY

Entered in the Postoffice at Red Cloud, Neb. as Second Class Matter

A. B. McARTHUR PUBLISHER

THE ONLY DEMOCRATIC PAPER IN WEBSTER COUNTY

Carl Spence has purchased the Napoleon Herald. This makes his third newspaper in Franklin county and we are wondering if he is forming a trust. He gets out a good paper. Is this a good trust?

We notice that the trees are to be cut down in the court house yard and would suggest that it would be better to leave all the box elder trees standing. These should remain until the new ones were well started.

We received a request from a Hastings firm this week for advertising space but we promptly informed them that our space was already taken by our home merchants and we could not accommodate them. We believe in home people first.

By defeating the University of Iowa the Nebraska foot ball team became the champions of the west. All Nebraska feels proud of this achievement and it will do much to strengthen the athletic activities all over the state.

The products of all the divisions of horticulture in Nebraska amount to ten million dollars annually, according to estimates made by the state horticultural society. The per capita production is almost \$10 for every man woman and child in the state each year.

Richard L. Metcalf, formerly of the Commoner has purchased the Omaha Nebraskan of Henry Richmond and has again entered the newspaper profession. The Chief predicts that Mr. Metcalf will make the Nebraskan one of the leading papers of the state. Here is our hand and we wish you unlimited success.

Our clothing merchant have decided to hold their Annual Clearing Sale at once and not wait as formerly till the first of the year. This will give the purchasing public the advantage of buying goods they need right at the beginning of the winter season. The

sales start Saturday of this week and some excellent bargains will be offered. No one can afford to miss these sales.

The report of the station registration board shows that the pure bred Percherons in Nebraska increased almost 3 per cent between the inspections of 1911 and 1913. In the latter year the per cent of pure bred Percherons was 55.5 and in 1911, 52.8. With careful attention to this branch of the horse industry, Nebraska can become the breeding ground of the world for the blooded Percherons.

Nebraska farmers are taking a keen interest in the effort of the railroads to increase freight rates on grain. The railroads have filed an application for a raise, the railway commission has interposed a protest and a hearing has been ordered so that each side may present evidence. Farmers as individuals and as organizations should give this question careful attention for the producer is the man who ultimately pays the increased rate.

THE ALARM OF FIRE is a dreadful thing for the man without insurance. Every time he sees the engines racing along his heart comes up in his throat if the fire is anywhere near his place. What folly, what mistaken economy.

THE COST OF INSURANCE is so small, but it need hardly be considered. The freedom from worry alone is worth it many times over. Have us insure you to day.
