WOMAN WOULD NOT GIVE UP

Though Sick and Suffering; At Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa.—"When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed."

As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache.

Women Have Been Telling Women for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills.

CHANGE POLL HOUR

URGE PUBLICATION OF PERSONAL ASSESSMENT LISTS.

Measure by Richmond and Broome Asks For Publicity in Matter of Personal Assessment Schedule.

Western Newspaper Union News Service. Opening of the election polls at 8 a. m. and closing at 8 p. m., as provided for in House Roll No. 200, by Smith, for all primary and general state elections, received the sanction of the house in committee of the whole.

The opposite argument was made by Norton of Polk that farmers can vote more conveniently after the day's work is over and inasmuch as the present law provides for closing the primaries at 9 p. m., he thought that general elections should run later than 6 o'clock.

The schoolhouse at Stratton was badly damaged by fire starting from an overheated furnace, and which had gotten under good headway before its discovery.

To Circumvent "Tax Dodgers"

The state press association bill introduced by Richmond and Broome, and which calls for the publication of personal assessment lists, is a measure much commented on in the legislature.

The legislators figure that while it will probably cost the various counties a considerable sum, the publication of the personal assessment rolls would save this cost many times over by driving the tax-dodgers to the open.

The state food, drug, dairy and oil commission received \$7,935.28 worth of fees during the month of January. At the same time the department made 1,340 inspections, covering everything from humble groceries to large packing houses.

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs"

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again.

ONE ON SECRETARY DANIELS

Head of the Navy Evidently Not an Expert as to the Odor of Alcoholic Liquors.

A story is going the rounds in Washington about Secretary of the Navy Daniels which may or may not reflect credit on that official, according to the point of view. According to this story the secretary was one morning conferring with an officer and in the middle of his conference interrupted the proceedings to say: "This is the second morning that I have smelled whisky on your breath, sir!"

To which the officer is said to have replied: "I beg your pardon, Mr. Secretary, it was whisky yesterday, but it is gin this morning."

No name has been allowed to leak out in connection with this story, and it may be that there is more fiction than fact in it.—Boston Transcript.

When the Laws Met.

The Laws sat about the long green table. All the fundamentals were there save one. Even the decrepit Sallie Law was present, dozing between the Mosaic Laws and the Law of Primogeniture.

The chairman, the Law of the Land, called the meeting to order. "Are all present?" he asked.

It was the Blue Laws who responded. "I don't see nothin' of the Law of Nations," he squeaked.

"The Law of Nations has been abolished," the chairman sharply replied. "The business of the convention will now proceed."

An Old Contention.

"How did she happen to decide that he was her soul mate?" "He was demonstrating a new dance at her house and b'ke a costly vase."

SAGE TEA AND SULPHUR DARKENS YOUR GRAY HAIR

Look Years Younger! Try Grandma's Recipe of Sage and Sulphur and Nobody Will Know.

Almost everyone knows that Sage Tea and Sulphur properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Advantage of Silencer.

This crash of the bullet makes the value of the Maxim silencer very little, so far as military efficiency is concerned, in the way that the fiction writer imagines the silencer to be useful, but not to prevent the enemy from discovering the position of the men firing as many fancy.

Its value lies in the fact that it eliminates fully half of the recoil of the rifle from the action of the gases in its chambers, and it gives the officers much better control over the fire, because of the lessened noise of the rifles. It cuts down the roar of the Springfield to about the noise of the .25-20 and thus the roar of the rifles at the firing line is much reduced, and the commands of the officers can be heard.—Outing.

Consternation at the Front.

The archbishop of York, in his early days, did a great deal of work among the uneducated classes, and on one occasion a very illiterate woman was godmother to a child at a christening. In the course of the ceremony she was asked in the usual way if she renounced the devil and all his works, etc.

"Oh, yes, sir," she replied briskly, "I recommend them all."

Not Much Acquainted With Him.

Advertisement for Grape-Nuts. Features an illustration of a horse-drawn wagon and text: 'What Becomes of the Wheat?' The wheat yield of the United States for 1914 reached the enormous figure of nearly 900,000,000 bushels. Yet in spite of the wonderful nutritive value of this grain, much of its value will be lost as human food. Why? Because many wheat products (white bread and many so called breakfast foods) lack the nourishing mineral qualities of the grain found directly under the bran-coat. These vital elements are thrown out with the bran-coat to make the flour white. More and more, thinking people are waking up to this fact, and are now obtaining all the grain nourishment by eating Grape-Nuts. This famous wheat and malted barley food, retains all the nutriment of the grain, including the rich mineral values so necessary in building brain, nerve and muscle. Grape-Nuts is all food—no waste! It is easily digested, and with cream or milk affords complete nourishment, at less cost than any other food. This, together with its delicious flavour—fresh-sealed, has made Grape-Nuts a household word the world over. 'There's a Reason' for Grape-Nuts. No rise in price—sold by Grocers everywhere.
